

GEO-volution: The Evolution of Colorado's Geological and Geotechnical Engineering Practice

November 10, 2006

Dear Colleagues:

The Steering Committee for the 2006 Geotechnical Seminar would like to invite your company to be a sponsor or exhibitor for the upcoming geotechnical seminar titled "*GEO-volution: The Evolution of Colorado's Geotechnical and Geotechnical Engineering Practice*". This seminar is a continuation of the biennial series presented by the Geotechnical Group of the ASCE Colorado Section, CAGE, AEG, and the ASCE Geo-Institute. It will be presented on Friday, November 10th, 2006 at the Sheraton Denver West Hotel located at 360 Union Boulevard in Lakewood. The goal of the seminar is to enhance the technical knowledge of local geotechnical engineers and geologists in areas of current regional interest. To increase the influence of the seminar, the proceedings will be published nationally by the Geo Institute of ASCE in a Geotechnical Practice Publication.

Each sponsor and exhibitor is being asked to contribute \$300 and \$350, respectively, for support of the seminar. This year, we have added the Break Sponsor level of support for \$450 for companies interested in sponsoring either one or both of the two break times featured in this year's conference schedule. Break Sponsors will receive prominent billing in conference proceedings and an opportunity to present an audio-visual showcase of their respective companies during break times. Each Sponsor or Exhibitor will receive one individual registration and is also invited to send one representative to the Speakers' Dinner, at 7p.m. on the eve of the seminar at the Hotel. Each Sponsor or Exhibitor's Logo will also be displayed on a banner, and listed along with a note of appreciation in the seminar proceedings. At this year's conference Exhibitors will have more space and time in the schedule than in years past, and will be provided a table or booth space at a location assigned on a first come first served basis.

Past seminars have been well attended and quite educational for the Denver area engineering and geologic community. Your support of the upcoming seminar will greatly contribute to the continued success of the seminar series.

Please fill out and return the enclosed information to Mark Brooks at the address indicated on the form or via e-mail at mbrooks@semaconstruction.com. We request that funds and 600 dpi electronic logo be received on or before October 20, 2006. A banner will include all sponsor logos if received by that date.

For questions related to conference registration, exhibits, and/or sponsors, please contact Minal Parekh (Chair) at 303-534-4789 x3222 (mparekh@lymanhenn.com) or Mark Brooks via the e-mail address indicated above.

With best regards,

The Geotechnical Seminar Steering Committee

GEO-volution: The Evolution of Colorado's Geological and Geotechnical Engineering Practice

GEOTECHNICAL SEMINAR

Organization:

Please indicate:

- I would like to be a Sponsor (\$300).
- I would like to be an Exhibitor (\$350).
- I would like to be a Break Sponsor (\$450).

Name of Organization as it is to appear in the flyer and seminar proceedings:

Address: _____

Contact Name: _____

Phone: _____

E-mail: _____

A check payable to "ASCE Geotechnical Seminar"

- Is enclosed
- Will be sent under separate cover by _____
(Date)

Please mail/fax responses and mail checks to:
