

The Connecticut Society of Civil Engineers  
presents the  
11th Annual  
**ACHIEVEMENT IN CIVIL ENGINEERING**  
**ACE AWARDS PROGRAM**

The Connecticut Society of Civil Engineers (CSCE) Section of the American Society of Civil Engineers aims to enhance the professional growth of its individual members, the advancement of engineering knowledge, the maintenance of high professional standards, to promote Civil Engineering education, to foster student membership and participation and cooperation with other engineering societies, in a manner consistent with the objectives of ASCE.

CSCE is honoring the design and construction achievements of Connecticut Civil Engineers. These Achievements in Civil Engineering Awards or “ACE” Awards will commend projects on which significant engineering expertise or innovation was exhibited by Connecticut Engineers and especially CSCE members. The ACE Awards will distinguish the projects, and thereby honor the overall contributions of numerous engineers and other team members.

At our May dinner event at the Aqua Turf Club in Plantsville, CSCE will present the Annual ACE Award and Award of Merit in some or all of the following categories: **Environment/Water Resources/Sustainability, Geotechnical, Planning, Structural, and Transportation**. CSCE will also recognize its members who were key participants on winning project teams.

To be eligible, a project must have been **planned, designed, or constructed** substantially between January 1, 2017, and December 31, 2017, in Connecticut. **Preference will be given to projects physically located in Connecticut**. Additionally, ASCE/CSCE members and non-members can submit projects related to: planning, design, and/or construction. Completed ACE Awards Application should include a Cover Sheet and related attachments (see other side of sheet). CSCE encourages firms that functioned as sub-consultants to submit individually, or partner with the prime engineering firms to apply.

**There is no application fee for ASCE/CSCE members, but a required fee of \$300 for non-ASCE/CSCE members.** All applications must be received by CSCE no later than March 31st. Prior to submitting an application, please ensure that all necessary permissions have been obtained from the owner (and other project team members) to allow for the disclosure of information about the project and team members, and photographs of the project.

**Limit one category per project phase/segment.** The same application cannot be submitted for multiple categories; however, different segments of a project may be submitted under the appropriate category for that work. One project may have different segments submitted under different categories, however the same segment or phase may not be included in more than one category.

Each application will be evaluated by a jury established by the CSCE Executive Board, based upon the following criteria:

- Advancement and innovation in the field of civil engineering
- Contribution to the well-being of people and communities
- Excellence in the management of the design and/or construction process
- Accomplishment of project objectives in the face of significant challenges
- Ingenuity in construction techniques, materials or design
- Client satisfaction

After the presentation of the awards, CSCE will send out a press release recognizing all projects and team members receiving ACE Awards. Additionally, this year’s ACE Award recipients will be noted in the program for next year’s ACE Awards dinner and in this year’s Annual Report. For more information, please contact CSCE at [admin@csce.org](mailto:admin@csce.org).

2018 CSCE ACE Awards Application Cover Sheet

This application is submitted for the following ACE Award. **Please select only one category per submission.**

- |                                       |   |
|---------------------------------------|---|
| <input type="checkbox"/> Structural   | <input type="checkbox"/> Transportation                                 |
| <input type="checkbox"/> Geotechnical | <input type="checkbox"/> Environment/Water Resources/<br>Sustainability |
| <input type="checkbox"/> Planning     |   |

Project Name: \_\_\_\_\_

Address, City, State: \_\_\_\_\_

Date of Project Completion (for phase/segment of project under this application): \_\_\_\_\_

Applicant Name: \_\_\_\_\_ Firm Name: \_\_\_\_\_

Firm Address: \_\_\_\_\_ Project Role: \_\_\_\_\_

Telephone: \_\_\_\_\_ Email: \_\_\_\_\_

**Project Description (500 characters or less):**

This description shall also be used to describe your project at the Awards Ceremony, should it be selected.

**Attachments:**

1. Narrative (no more than three pages) explaining why the project deserves an ACE Award (all projects will be judged for "sustainability" and a special award will be given to one project that demonstrates incorporation of the ASCE Sustainability elements).
2. Description of scope/project size – This will not be publicized, but will be used by the internal review committee for project classification.
3. Project Team Members (Engineers, Architect, Contractors, Construction Manager, Owner, etc.) and list of CSCE members involved and a summary of their significant contribution
4. Up to 6 photographs in digital formats
5. Client testimonials or recommendations
6. Newspaper articles
7. Any other materials that will assist in evaluating the merits of the project
8. Electronic pdf file of all material submitted
9. Electronic slide files with project photographs for use in slide show at ACE Awards
10. \$300 fee for non-ASCE/CSCE members

This completed form is the cover sheet of your application package. Please submit the application electronically as a pdf file via email to [admin@csce.org](mailto:admin@csce.org) and mail four (4) copies of the application package to the Connecticut Society of Civil Engineers, P.O. Box 1101, Deep River, CT 06417, so that it is received **no later than March 31st.**
