Greetings Duluth Section!

With some states letting up on their mask restrictions, our COVID-19 cases going down, and an increase in vaccinations, we are hopefully getting closer to our new normal. At the very least, we will be heading into warmer weather with more opportunities to spend time outside in the nicer temperatures which is a win to me!

As we're heading into construction season, Steve Krasaway, PE of St. Louis County Public Works will be presenting about the Rice Lake Road Construction project and what they did after they discovered human remains onsite. It should be an interesting presentation with a tough situation that none of us would want to be in. Hopefully you can attend!

In recent news, ASCE released their 2021 Report Card for America's Infrastructure on March 3rd. If you aren't familiar with what the report card is, it "depicts the condition and performance of America's infrastructure in the familiar form of a school report card—assigning letter grades based on the physical condition and needed investments for improvement, and provides recommendations to raise the grades," according to ASCE National. On this report card, America received a C-. This is still just below average, but we are showing improvement from the D+ we received in 2017. The Twin Ports Area Report Card that came out in 2018 garnered a C rating. For the 2022 Report Card, the Duluth Section has joined forces with the Minnesota Section and will put out a joint report card. As a state, we are currently in the process of gathering data for the 2022 Report Card. Hopefully we can improve our grade as a state like our grade improved as a nation!

This month, scholarship applications are still being accepted and are due March 19th to schristenson@sehinc.com. So far, I have not heard that we have received any applications. Please reach out to students or family that are attending college and meet the requirements. Last year we didn't have any applicants and we don't want that to be the case this year too! You can find the scholarship application in the newsletter and in the email sent by Tom DesMarais previously. If you have any questions on eligibility, please reach out!

Looking ahead, even though we won't be able to have the Annual Awards Banquet in person, we will be having a networking event on Thursday, April 29, 2021 at 5 pm. Be on the lookout for more information, but we will potentially be having food and prizes!

As always, if you have any ideas, feedback, or questions, feel free to reach out.

Thank you and I hope you can join on the 16th for the luncheon!

Speaker and Board Member Spotlight

Sara Christenson, PE (Lic. MN), M. ASCE, Duluth Section Secretary

Where did you graduate from?

I received my Bachelor of Science in Civil Engineering and my Master of Science from The University of Minnesota Duluth (UMD).

Where do you work and what do you do?

I work at Short Elliott Hendrickson Inc. (SEH) as a Professional Engineer in Grand Rapids, MN. I am the head of design in the Grand Rapids office and am a Project Manager. My frequent projects include Private Site Developments, and Municipal Street and Utility Design and Construction.

Why did you decide to get involved with ASCE and what would you like to see happen?

I originally decided to get involved with ASCE roughly 10 years ago when I attended UMD. During that time, it was a great opportunity to meet people in the engineering field. Since moving to Grand Rapids, it has been difficult to engage in ASCE activities due to location, that was until COVID. Having Board Meetings and Luncheons virtually has now allowed me to participate, even though I live and work outside of Duluth. I think there are many in my situation that would like to be more active in the Duluth Section of ASCE, however having the time to get to the destination isn't always available. I would like to see a combination of in person and virtual events in the future.

The Duluth section includes Aitkin, Carlton, Cass, Cook, Crow Wing, Itasca, Koochiching, Lake, Pine and St. Louis Counties in Minnesota and Ashland, Bayfield, Burnett, Douglas, Sawyer and Washburn Counties in Wisconsin.

Younger Member Group Update Positions Open

We have been seeking one or two individuals to fill open positions on the Younger Member Group (YMG) board the last few months. As of this writing, the Vice Chair and Membership Chair positions are still vacant. The YMG board positions are a one-year commitment. This provides you with an introduction to ASCE and the YMG before committing to a multiple year engagement on the Duluth Section board.

Participation on the YMG Board provides great local networking opportunities with engineers and professionals in your area. Duluth is a small community and developing relationships with local engineers is beneficial to your development as a young engineer.

As a member of the YMG board, you will be provided with training and development opportunities on a regional and national level. This includes traveling to leadership conferences and symposiums to network and learn from other leaders in the profession.

If you or someone you know may be interested, please email Ben or Rose to express your interest (emails listed to the right). We look forward to hearing from you!!

American Society of Civil Engineer's Mission is to provide essential value to our members, their careers, our partners and the public by developing leadership, advancing technology and advocating lifelong learning and promoting the profession

We want to thank you for supporting The Duluth Section of the American Society of Civil Engineers in the past. Your sponsorship helps fund several programs that are specific to the Duluth Section. The first being our toothpick bridge competition. This program helps promote civil engineering at a young age, which is vital to the future of our profession. The second program is our annual scholarships to civil engineering and civil engineering technology students. Your sponsorship helps our local ASCE section to promote these valuable activities. That is why it is time again for us to ask you to renew your sponsorship, or consider a new sponsorship for 2020 - 2021. Our membership is comprised of engineers from a diverse range of companies (engineering, construction and geotechnical, etc.). We are very proud to showcase your company logo on our sponsor page.

With a contribution of \$250, your company's logo will be displayed in each section newsletter from September 2020 through August 2021. Our newsletter is produced 9 months of the year and reaches all of our 250+ members. Your support also aids the Duluth ASCE Section's efforts to keep the civil engineering community actively involved through technical presentations and networking luncheons, social activities, and student outreach activities.

If you would like to renew your sponsorship or become a sponsor, please send a check payable to **ASCE - Duluth Section** to the section treasurer:
