Technical Visit to KCRC Contract LDB 201 Sheung Shui to Chau Tau Tunnel

organized by
American Society of Civil Engineers – Hong Kong Section

Date of Site Visit: Saturday, 26th February 2005
Time: 9:00 am to 12:00 pm
Assembly: Sheung Shui Station Ticketing Hall

Program Highlight:
LMC Spur Line is one of the KCRC East Rail Extension Projects under construction that links the existing Sheung Shui Station and the proposed Lok Ma Chau Station. This railway will relieve passenger congestion at Lo Wu boundary with the Mainland.
Contract LDB201 Sheung Shui to Chau Tau Tunnel is one of the Spur Line contracts consists a 3.2km tunnel excavated using a Tunnel Boring Machine (TBM). The alignment passes through Kwu Tung where an underground station is being built in reserve for LMC Spur Line.
During the visit, members may view the TBM launching shaft and its related site installation, a part of the as-constructed segmental tunnel and the Kwu Tung Station.

Registration and Enquires:
For enquiry, please contact Miss. Barbara Siu at E-mail: barbara@ust.hk. Registration is required but the maximum number of participants is restricted to 20 due to the transport capacity on first come first serve basis.
Please note that neither ASCE nor the parties concerned accept any liability in connection with the visit.
Wear Clothing appropriate for a construction site visit including safety boots. Hard hats will be provided.

Itinerary:
09:00 – 10:00 Project briefing
10:00 – 11:00 TBM launching shaft & site installation
11:00 – 12:00 Kwu Tung Station
