

THE
INFORMANT
 NEWSLETTER OF THE MAINE SECTION ASCE
April 2019

From the Editor:

Happy April!

First off - Please consider nominating your peers and projects for the Maine Section ASCE Awards! **This year's nominations are due by 4/12/19!** The nomination forms have been attached to this email! The next two months are packed with events, two of which are at UMaine so if you have the chance to be a volunteer, donate, or spectate; we encourage you to do so!

If you have ideas, suggestions, questions, etc. please feel free to contact us at Informant@maineASCE.com.

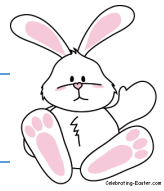

I hope to see you soon!

Heather

President's Message

Last month we hosted our annual technical seminar in Auburn. I would like to thank all the presenters that spoke at the seminar and made this year's seminar a success. I would also like to thank Ray Bolduc, our technical seminar committee chair, for all his hard work planning this year's event.

We also had two representatives from the Maine Section attend the 2019 Legislative Fly-In last month. Thanks to Mike St. Pierre and Heather Hayes for making the trip to Washington D.C. and discussing the importance of infrastructure funding. This included encouraging our elected officials to support fixing the Highway Trust Fund, funding appropriations and implementing a long term infrastructure plan.

This month we will be heading to Orono to support the University of Maine Students as they compete at the New England ASCE Regional Student Conference from April 12-14. This year's event which is being hosted by the University of Maine includes the Concrete Canoe Competition, the Steel Bridge Competition, and the Sustainable Dog House Competition. More information and the full events schedule is listed on page 6. The students are still trying to raise some additional funds to cover the expense of the competition.

If you can please support them by clicking the link below:

<https://www.gofundme.com/umaine-asce-student-conference?fbclid=IwAR0Wsw151Mc1wfhxjqYlr-THAKu2s3XXGNLs7Fzip0v0fUYTN4oWsdUPg9M>

We will be heading back to Orono on April 29th to see what projects the seniors have been working on for their capstones. This year we have 12 different projects that the students will be presenting on during the poster session of the meeting. The students do an amazing job on these projects and this is a great opportunity for employers to meet some fantastic young engineers.

There is still time to nominate one of your fellow engineers for one of our annual awards. For more details see this issue of The Informant.

- Civil Engineer of the Year
- Citizen Engineer of the Year
- Young Engineer of the Year

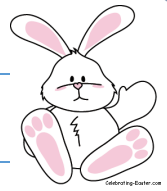

I'm also still accepting applications for the Kitty Breskin Project Award. If you have worked on a project this year you think is worthy of some additional recognition, please submit your project to me. For more details please see this issue of The Informant.

We are also looking to fill some open committee and board positions for our next term which starts in June. If you are interested, please contact Mike St. Pierre (MSt.Pierre@swcole.com) or me (lucas.stiles@kleinschmidtgroup.com).

Lucas Stiles, P.E.

Maine Section ASCE President

Maine Section ASCE Annual Meeting and Awards Banquet

Wednesday, May 22, 2018

**Spring Meadows Golf Course
59 Lewiston Road, Gray, ME**

Join us as we unwind from another busy year at the Maine Section ASCE Annual Meeting and Awards Banquet. We will be joined by special guests John C. Folts (National ASCE Region 1 Governor).

Come socialize and network with your engineering colleagues and meet aspiring high school students. Make sure to bring your competitive side to outwit those around you in the annual Younger Member Trivia challenge. Prizes to be award so make sure to pick your teammates carefully!

The meeting will feature award presentations, high school scholarship presentations, honoring of life members and the induction of the new section officers.

John C. Folts, P.E., M.ASCE

Schedule:

- 5:00 - 6:00 Registration, Social Hour
- 6:00 - 7:00 Dinner
- 7:00 - 9:00 Awards/Speakers/Officer Installation/Trivia

RSVP By May 17th!

Price:

- ___ \$35 ASCE Members before RSVP (May 17)
- ___ \$50 Non Members and Members after RSVP
- ___ \$25 Government Employees
- ___ \$15 Students
- ___ \$0 Life Members

Now Accepting Credit Card Payments!

Make checks payable to: **Maine Section ASCE**
We reserve the right to invoice no-shows.

Maine Section ASCE Gladly Accepts Cash, Check, Visa, and Master Card. Payment at the door is acceptable.

Name: _____ Life Member: ___ Yes ___ No
 Organization: _____

To Register or for more information, contact Dan Bouchard (ASCE Maine Section Vice President)

- Email: dbouchard@louisberger.com

UMaine Student Chapter Update

P3: Practitioner Presentations & Pizza

We would like to thank our speakers for coming to speak at our meetings this month!

- March 6: Aaron Gallant from the UMaine Civil Engineering Department spoke about his mission with the Geotechnical Extreme Events Reconnaissance (GEER) Association on the Palu-Donggala earthquake in Indonesia.
- March 13: Craig Douglass from the Brunswick Topsham Water District spoke on the transition from school to career, including the importance of networking.

We are seeking 2 additional practitioner speakers to finish out this semester.

These presentations are a great way for our student members looking for summer internships and full time positions to relate course content to the broader profession, and network. Please contact Alden Burns (alden.burns@maine.edu) to inquire about getting on the schedule.

Engineering Expo

This year the UMaine ASCE students made the trek down to Portland for the Engineering Expo on the first weekend of March. Many of our students attended the Banquet Friday night before volunteering at the Expo on Saturday. Nine of our members attended the Expo where we made concrete hands with kids of all ages! We would like to thank the generous support of the Maine Section, who lent us the supplies we needed to make the concrete hands.

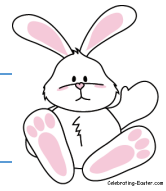

New England Regional ASCE Student Conference

We are less than a month away from UMaine hosting the New England ASCE Regional Student Conference on April 12-14, 2019. The Conference will be attended by 450-500 students from the greater New England region (including parts of Canada), participating in different competitions. Since the last Informant, we have secured a race location for the concrete canoes in Old Town! We would like to thank all of the companies who have sponsored us so far. Since we need to order t-shirts with sponsors on the back, we are unable to accept any other sponsorships. However if you would like to help us reach our final goal of \$15,000, we have a GoFundMe page set up. The link is: [ASCE Conference GoFundMe](#)

Senior Gala

This year's Senior Gala is held Monday, April 29, 2019 from 4:30pm to 8pm. We are excited to see all the hard work the senior class has put in on their Capstone Projects this year! We have a lot of great Capstone Projects and the graduating seniors would like to show their hard work to the broader civil engineering profession. We'd like to invite you to come and attend the Senior Gala. We're hoping to have at least 30 practitioners not involved in judging attend this year. You can RSVP to carly.buswell@maine.edu or check out the flyer about the Senior Gala included in this month's Informant.

We at UMaine ASCE thank you so much for your support!

Recognize Your Peers with a Maine ASCE Award!

Our Section continues to win national awards because of all of our great members! To help say thank you, each year, the Maine Section ASCE recognizes an Engineer of the Year, a Young Engineer of the Year, and a Citizen Engineer. Many of our colleagues often go unrecognized for their contributions, and this is the opportunity to express gratitude for the good work and service to the community that they provide. Please consider submitting a nomination for one or more of the awards this year.

Civil Engineer of the Year – presented annually to an individual who is a P.E. in Maine, has demonstrated noteworthy engineering skills, and commendable contribution of their time to the betterment of society.

Young Civil Engineer of the Year – recognize the professional contributions of younger civil engineers. The recognition is made to an engineer who is an EIT or PE in Maine and is 35 years of age or less on May 1st of the year of the award and has attained professional achievement.

Maine Section Citizen Engineer – This award is to recognize Civil Engineers who are known for volunteering their expertise to help in their community or at a national level. These individuals have contributed significant personal energy to enhance the recognition of civil engineering as a respected profession through their involvement.

NOMINATION FORMS ATTACHED TO THE EMAIL!

Submit your nomination forms and supporting information to the chair of the awards committee chair, Philip Dunn at the following mailing address: University of Maine, School of Engineering Technology, 5711 Boardman Hall, Room 119, Orono, ME 04469-5711 or through email at philip.dunnjr@maine.edu.

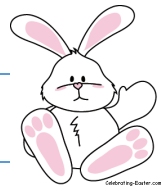

Kitty Breskin Project Award –

Maine ASCE has instituted the project award in honor of the late Kitty Breskin, P.E., a Maine Department of Transportation engineer and a past-president of Maine ASCE. The inaugural winner of the Kitty Breskin Project Award, presented at the May 14, 2015 annual meeting, was in fact the MaineDOT's Kitty Breskin-Muscongus Bridge Project. The project was honored for its innovative use of technology and important contribution to infrastructure in Maine.

In order for other projects to be considered for the award they will have to show the same innovation and contribution to the community as the inaugural award. The Maine Section Award committee will review nominations and notify the winner by May 1. The award presentation will be made and the project will be featured at the Maine Section annual meeting typically held the third week in May. Nominations are to be submitted via mail or email to the ASCE President and received by 5 p.m on April 12. This year's projects will be submitted to Lucas Stiles, Maine Section ASCE President, 2018-2019. Kleinschmidt Associates, 141 Main St, Pittsfield, ME 04967 lucas.stiles@kleinschmidtgrou.com

The nomination material should provide information on the project and its features. Examples to include would be how the project provided safety improvements, environmental benefits, was cost effective, had a shortened schedule, charitable aspect, unique design for Maine, or was first of its kind in Maine. Every project nomination does not need to have all of these mentioned but should showcase if applicable as they will be weighed heavily. Nominations should be limited to 6 pages total not including pictures (3 pages double sided or 6 single sided pages). Pictures need to be provided on a cd or memory stick and become the property of Maine Section ASCE to display as part of the award process. The project must be substantially built by April 1 of the year being nominated for and the design team and/or the project must be based in Maine.

Nominations will be received until **April 12, 2019.**

Calling All ASCE Younger Members!

I am reaching out to let you know about an exciting new mentorship program the Maine and NH ASCE YM Chapters are starting this year. The objective of this program is to connect graduating students with YMs in the area they are moving to after college. This will not only help ease the transition from student to young professional, but also develop friendships and help build the YM Chapters. We have already received a lot of interest from UMaine students!

We are looking for YM mentors of all disciplines, ages, and experience levels. We simply ask that mentors help answer any questions your mentee may have about moving, transitioning to a new job, social life in the area, etc., and invite mentees to any events you are attending. The YM Board is planning a lot of fun events for the upcoming year, including an Escape Room, brewery/distillery tours, Arena Football/baseball/hockey games, apple picking, trail cleanup, bowling and more! Personally, I think being a mentor will be a fulfilling experience.

If you are interested in being a mentor, please take **2 minutes** to complete this short survey (I promise it is very short): [ASCE MENTOR SURVEY](#)

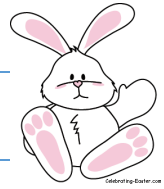

If you have any questions or comments, feel free to reach out to me directly at aabel@woodardcurran.com or (518) 618-5039. Looking forward to hearing from you all!

Amy

Ski A Thon Recap!

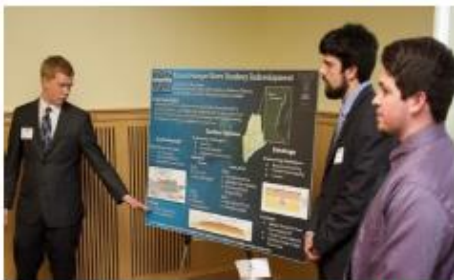

Our two ASCE teams combined raised **over \$4,000** for Maine Adaptive Sports and Recreation! Thank you to everyone who participated and donated!

The American Society of Civil Engineers
Maine Section Presents:

2019 Senior Capstone Project Gallery & Presentation

When: Monday, April 29, 2019 from 4:30pm to 8pm

Where: Wells Conference Center, University of Maine in Orono

What: The senior civil engineering students will be displaying their capstone posters during the social hour. Each of the capstone teams will present their posters to a team of judges while competing for the coveted Gala Cup and cash prizes. This is your chance to see what the seniors have learned over the past four years at the University of Maine. After judging is complete, dinner will be served and the raffle will be drawn.

Following dinner, we will enjoy a technical presentation "Composite Tub Girders – Bridging the Gap Between New Materials & an Age Old Profession" presented by Tim Kenerson, P.E. of Advanced Infrastructure Technologies, LLC and Anthony Diba of the University of Maine Advanced Structures and Composites Center. The presentation will follow the journey from concept to pilot project as they explain the advantages of the new system & how it differs from other composite solutions in the market today. Mr. Diba will present his research and findings that enabled AIT to secure a project set to be constructed this year. Mr. Kenerson will present the details and unique benefits of this long lasting, low maintenance system. Prior to the evening festivities, attendees are also invited to join an optional tour of the Advanced Structures and Composites Center from 3-4pm which will tie into the evening presentation. Following the presentation, prizes will be awarded to the winning teams!

Name: _____

Number of Attendees: _____

Do you wish to attend the tour: Yes No

If you plan on attending the tour at 3pm, please provide the names of all attendees & a contact email address by April 15.

Cost:

- ____ \$40 ASCE Members Before RSVP Deadline
- ____ \$45 Non-Members and Members After RSVP Deadline
- ____ \$30 Parents, Retirees, and Unemployed Members
- ____ \$10 Students*

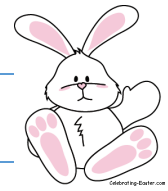

*Make checks payable to: Maine Section ASCE. Parents – you do not need to pay for your senior students!

Schedule of Events:

- 3:00-4:00 Optional Tour of Advanced Structures & Composites Ctr.
- 4:30-6:00 Registration, Social, and Judging
- 6:00-6:45 Dinner and Raffle
- 6:45-7:45 Presentation
- 7:45-8:00 Awards

Contact:

Mail or email your RSVP by April 15 to:
Carly Buswell
UMaine ASCE Student Chapter Secretary
5711 Boardman Hall
Orono, ME 04469
carly.buswell@maine.edu

Judges and Sponsors Needed For 2019 Senior Capstone Project Gallery & Presentation!

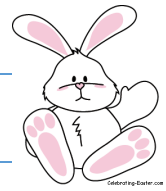

The Maine Section of the ASCE is currently looking for sponsors and judges for the 2019 University of Maine Senior Capstone Project Gallery & Presentation taking place on Monday, April 29 at the Wells Conference Center on the University of Maine campus from 4:30pm to 8pm.

We are looking for people to judge the senior civil engineering student's capstone posters to determine which capstone team will win the coveted Gala Cup and cash prizes! All judges will get half off of the registration fee for the dinner and presentation after the judging is complete.

We are also looking for company sponsorships! We are asking that each firm donate \$200 and provide at least one small gift to be used as a raffle item. The cash donation is intended to help offset the cost of the students' dinner and registration fees, and includes registration for one representative from your company for this event. The raffle item does not have to be expensive and we suggest anything from a gift card, or something as simple as donating some of your company's branded gear (could be a company logo shirt or similar).

If you are interested in being a judge or sponsor or have any questions, please do not hesitate to contact Esther Bizier at esther@main-landdci.com by April 19th. Checks for sponsorships can be made out to Maine Section ASCE and can be sent to Esther Bizier at the following address: PO Box Q, Livermore Falls, ME 04254.

Public-Private Partnerships (P3)

Joseph Aiello

Chairman of the Fiscal and Management Control
Board at the MBTA in Boston

Please join
WTS-Maine Chapter
for breakfast and an
informative
presentation by
Joseph Aiello!

Mr. Aiello, the pro-bono Chairman of the Fiscal and Management Control Board at the Massachusetts Bay Transportation Authority (MBTA) in Boston, will discuss how Public Private Partnerships are structured, how Risk is allocated among the partners, and what characteristics are important to the private sector when thinking about bidding.

Mr. Aiello will also describe the public policy advantages and disadvantages of utilizing this procurement tool. Finally, Mr. Aiello will reflect on the struggles that have afflicted MBTA and how smart contracting can lead to better outcomes.

Mr. Aiello is a recently retired Partner at Meridiam Infrastructure Managers, a private equity investor/developer of infrastructure. He continues to serve at Meridiam as a part-time Senior Fellow, and is currently assisting the Commonwealth of Puerto Rico in its development efforts.

At the MBTA, Mr. Aiello has been a particular champion of utilizing alternative procurement methods to obtain better outcomes for the MBTA. He has pushed for the Authority to adopt a strategic plan that focuses on improved service to customers, adaption of an environment of immense technological change, climate change, and growing concern about regional congestion.

BREAKFAST MEETING

STEM Camp Scholarships

The Maine Section of the American Society of Civil Engineers (ASCE) is happy to announce the continuation of our **SUMMER STEM CAMP SCHOLARSHIP** program!

- ✓ **Who?** Maine Students currently enrolled in Grades K-8.
- ✓ **What?** To attend Science, Technology, Engineering and Mathematics (STEM) oriented camps.
- ✓ **Where?** Any STEM camp you choose!
- ✓ **When?** Applications must be received by April 30th
- ✓ **How much?** Up to \$350 to cover the cost of camp!

The fine print: To help those who may need assistance with camp fees we will be providing an undetermined number of scholarships to winners statewide. The selection criteria will be based on financial need and the camper's statement about why they would like to attend a STEM camp.

The payment will be sent as a reimbursement to the parent once the camp is complete and proof of attendance/cost is received. If for any reason your camper cannot attend the camp as intended the scholarship will be given to the next eligible applicant on our list.

Each camper will be asked to send us pictures and write a letter about their experience to share with the board and membership as a "thank you". This isn't meant to be homework - we're just very excited to hear about your adventure!

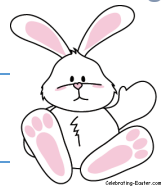

To apply for a scholarship please fill out the following form and mail or email to:

ATTN: Heather Hayes
James W Sewall Company
40 Forest Falls Drive, Suite 2
Yarmouth, ME 04096
heather.hayes@sewall.com

You can also call if you have any questions:
