## HISTORICAL MASTERPIECES: CHURCHES, CASTLES, COLOSSUEMS

(1 PDH Pending)

Speaker: David T. Biggs, PE, SE, F.SEI, ASCE Life Member  
*Biggs Consulting Engineering, Saratoga Springs, NY*

Many countries have outstanding structures that have existed long before there was a United States. With that heritage comes a duty to conserve and restore these structures. This presentation includes first-hand accounts of various sites throughout Europe and Turkey where our speaker has traveled or worked, including churches and castles in Germany, France, and the Czech Republic and colosseums for the Roman Empire in Italy and Turkey. Each has conservation challenges for protecting our built heritage.

David Biggs specializes in masonry design and restoration, forensic engineering and disaster assessment. He is a Distinguished Member of ASCE and is a past President of the Mohawk-Hudson Section and ASCE Director. He works Internationally with current restoration projects in Turkey and Nepal
