

## September Meeting

---

**When:** *Wednesday, October 15, 2003 - Noon to 1:00 PM*

**Where:** *ONEOK Cafeteria,  
Downtown  
100 W. 5th Street (Basement)*

**Topic:** *Odyssey of the Mind*

**Speakers:** *Jenks West Intermediate OM team*

*Odyssey of the Mind is an Organization sponsored by NASA that teaches creative problem solving methods while having fun in the process. Teams from schools all over the world work during the school year to solve one of five long-term problems provided by Odyssey of the Mind.*

*The problems range from Mechanical/vehicle, Classics, performance, structural and technical performance (robotics). The Jenks West Intermediate OM team competes in the structure building competition using only balsa wood and glue. At competition, the team creates a skit (including costumes and props) as part of their presentation and they test the structure by supporting and holding as much weight as possible.*

*Last year, the Jenks West Intermediate team won the State Competition and competed in Worlds held at Iowa State University. They competed against teams from all over the world including teams from Europe, Asia and Canada. The Tulsa Branch of the American Society of Civil Engineers supported their endeavors last year.*

## Branch Business

### Calendar

---

**November 19, 2003**

Lunch meeting: Noon-1:00 PM

Speakers: TBA

### Officers

---
