Monthly Meeting: Kone Centre Building Tour

For this month's meeting, the section will take a tour of Moline's new KONE Centre. The KONE Centre was established in 2009. The eight story, 125,000 square foot mixed-use KONE Centre cost \$41.3 million. The tower opened in August 2012. The project allowed KONE to consolidate its local presence into one location. KONE Centre is the first Core and Shell PLATINUM LEED building in the state of Illinois. KONE Inc., an international elevator and escalator manufacturer, is the tower's anchor tenant demonstrating their commitment to consolidate and maintain a significant presence in Moline. The development includes sustainable KONE products, including three [KONE MonoSpace®](#) Machine Room-Less elevators with Regenerative Drives and [KONE Polaris™](#) Destination Control technology. A combination of active and passive energy strategies includes an array of 1365 distributed solar panels, which is now the third largest in the state of Illinois. The KONE Centre also houses condominium, commercial, and retail space. Members should meet at the building a little before 5:30 pm. There is free parking in front of the building or along the street leading up to it.

After the tour around 6:30 pm, members are welcome to eat together at the Riverhouse Restaurant, which is only a few blocks away at 1510 River Dr, in Moline.

[SAME JETS 2013 Fall Conference](#)

Our SAME Rock Island Post partners are this year committed to running an SAME Regional training conference. ASCE will assist in arranging a three topic "technical track" at the JETS conference. Further, ASCE will forgo their share of the proceeds from the conference this fall year. And finally, QC ASCE members will be given the same rate to the 2013 JETS Conference as if they were SAME members. So the conference differs in that there is a planned vendor area, and will pull speakers from a larger area. Though the topics will be more focused to the river and environment than usual, the overall benefits will be worthwhile.
