Engineers Week, February 17-23, 2019

Every February, the St. Louis region hosts a variety of events around the metropolitan area highlighting the engineering profession and industry called St. Louis Engineers’ Week. The Engineering Center coordinates professionals to participate in many events around the St. Louis region that highlight the engineering industry and profession. For details of the forthcoming events, please check the E-Week Flyer.

2019 Annual Engineers Luncheon, Tuesday, February 19.

President’s Message

If you are reading this, you have successfully survived Polar Vortex 2019. While we didn’t see our daily high temperatures well below zero like our friends up north, the cold weather placed a strain on our infrastructure, causing water main breaks and power outages across the Midwest. These issues not only highlight our continued need to promote the maintenance of our aging infrastructure, but also an essential aspect to our engineering designs: Resiliency. As engineers, our projects often impact large sections of society and are pushed to their limits at the most inconvenient times. The extreme heat and cold push our electrical, water, and transportation systems to their extremes when they can least afford to break down. Incorporating resiliency into our designs is key to provide a system which will survive the next test.

Our efforts in sustainability have been noted over the years and one of the key outcomes is the understanding of resiliency as the best way to reduce waste. Simply put, if it doesn’t need to be torn down and replaced after a disaster or can be made to last longer, it saves far more resources than those required to build it better the first time. While this seems obvious, it is not always at the front of mind when owners are making these key decisions. This is why it is important that engineers be at the forefront of the discussion and lead the charge for full lifecycle analysis and big picture thinking when key decisions are made.

February brings around another opportunity to inform the general public of the important role engineers play in society and how we can provide leadership in planning our future. February 17th – 23rd is National Engineers Week. Founded in 1951 by the National Society of Professional Engineers, Engineers Week is dedicated to informing the public about engineering and ensuring a diverse and well educated engineering work force in the future through outreach effort. It is an excellent opportunity to brag about what we do and how we make this world a better place to live.

To this end, ASCE will be presenting at the SciFest Engineering Expo at the St. Louis Science Center on February 23rd and 24th. We will have the St. Louis Section’s Display booth as well as hands on activities for kids of all ages. If you are interested in volunteering, please contact Brandi Jones (Younger Member Chair) for additional information. If you aren’t able to volunteer, I strongly encourage you to bring friends, family, and lots of small future engineers to the Science Center to see the great work ASCE and other Societies have on display.

Best Regards,
Chad Schrand, PE, SE, M.ASCE, F. SEI

ASCE Missouri Legislative Drive-In

7th Annual Legislative Drive-in to Jefferson City
Promoting Infrastructure Development
Wednesday, April 3, 2019

Our goal is to introduce ourselves and ASCE to our state senator and representative and discuss the urgent need for infrastructure construction in Missouri to facilitate job growth today and invest in our children’s future. Please contact your state senator and representative and schedule meetings between 1:00 - 3:00 pm on that day. You can call or email them.

We will meet in the Third Floor Rotunda Alcove at 11:00 for a catered lunch, followed by training on the issues and how to effectively speak with legislators. Please download the Save America’s Infrastructure app from ASCE to your smartphone or pad from Google Play or iTunes. It includes ASCE’s National 2017 Infrastructure Report Card and Missouri’s 2018 Infrastructure Report Card. We will provide additional materials for you to share with your elected officials.

Discussion Points to Include:
1. Asking legislators to prepare a clearly worded ballot measure for a fuel tax increase to fund highway improvements.
2. Asking for qualifications based selection (QBS) for public contracts.
3. Keeping an engineering licensing board to license Civil Engineers.

To register, contact Dennis Boll at 314-568-3125 or dboll@geotechnology.com

Committee Chair Openings
ASCE St. Louis Section is seeking dedicated members to open chair committees as briefly described below, with the opportunity that the incoming chair will “make it their own.”

Career Guidance Committee - The purpose of the Career Guidance Committee is to inform elementary, middle and high school students and staff about Civil Engineering. This information includes the requirements for becoming a civil engineer, and how civil engineers improve the quality of life for all citizens. The committee provides speakers and participates in Career Days, Shadowing Days, and other volunteering opportunities relating to Civil Engineering. They also maintain a database of school counselors, and keeps an inventory of materials (including brochures, pamphlets, videos) used by the Committee in their activities. The Society provides many resources and materials to be utilized by the Committee in their efforts.

Life Member Committee - The Life Member Committee Coordinator serves as a contact point for life members, keeping life members informed about the activities of the chapter and organizing any life-member oriented activities.
Introducing ASCE to High School Students

Past-President Lyle Simonton spoke to students at the Academic Challenge (formerly WYSE) competition at Southwestern Illinois College (SWIC) on Friday, February 1. The ASCE St. Louis Section is a sponsor of this event, which brings in approximately 250 students from area high schools who compete by taking tests mostly in the STEM-related subjects. Lyle also spoke to a Calculus III class about engineering careers and specifically civil engineering.

ASCE St. Louis & Kansas City Sections Respond to MO State of the State Address

Sheryl Gallagher, the chair of the 2018 Report Card for Missouri’s Infrastructure and member of the Kansas City Section, published an editorial response to Governor Parson’s State of the State Address in the St. Louis Post-Dispatch: “Missouri needs long-term investment to fix its infrastructure.” St. Louis Section members Dennis Boll and Alison Graves provided input on the article, along with members from the Kansas City Section and ASCE Society Government Relations staff. As the Civil Engineering experts, we want to do our part to keep infrastructure investment in the public eye and maintain pressure on our elected officials to find solutions together.

While the editorial was also submitted to the Kansas City Star, their editorial board released their own response to the State of the State address: “Gov. Mike Parson should try again to pass a gas tax for crumbling Missouri highways.” We support their evaluation of Proposition D and recommendation that the Legislature put forth a clean ballot measure for the people of Missouri.

Get the grades and read more about Missouri’s infrastructure needs in our 2018 Report Card!

Randolph Milton Terry (Milton) was born Feb 15, 1926 in Overland, MO (North St. Louis County). He grew up there, entered the Army-Air Force near the end of WWII. He married Monette LaSource while enrolled at the Missouri School of Mines and Metallurgy (MSM). She passed away in 1986. They had a daughter, Sharon Terry Wolz Oatis, two grandchildren, Meredith Wolz Peterson and Nathan Oatis and a great-grandchild. He lived in St. Louis County the whole time except when on remote assignments. In November 2017, he moved to Friendship Village – Chesterfield. He passed away there on January 10, 2019 at age 92, shortly before his 93rd birthday.

Milton graduated from MSM with a BSCE degree in June of 1950. He went to work at Fruin-Colon, St Louis, MO in 1950 and stayed there until 1967, after which he went to work at Sverdrup & Parcel in St. Louis, MO. He worked there until he retired in 1993. He was registered as a PE in Missouri and as a PE and SE in Illinois. He was a 70-year member of ASCE.

Over the years, Milton was a structural design engineer, construction supervisor and group leader on many projects within the U.S. and overseas. Examples include the Illinois State Penitentiary in Vienna, a 750,000 KW power plant in Memphis, TN, an oil pipeline project in Algeria, a McDonnell-Douglas Harpoon Missile Assembly Plant in St. Charles, MO and a McDonnell-Douglas Rocket Facility in Arizona. Projects in Saudi Arabia included military bases and an Administration Building in Riyadh for the Saudi Government.
Sustainability Committee Seminar

ASCE St. Louis Sustainability Committee Seminar
Title: ASCE Initiative on Sustainability

Speaker:
Michael T. Buechter, P.E., D.WRE

Date and Time:
Thursday, February 14, 2019, 4:30 PM – 5:30 PM

Seminar Information:
Location: Havana Room, 4240 Duncan Ave, St. Louis, MO 63110
Free drink will be provided at the venue by Venture Café St. Louis
Attendees will earn 1 PDH
Event is FREE
RSVP at https://goo.gl/Ch5US5

Short Description:
This presentation will provide an overview and introduction to basic sustainability concepts. This will include an introduction of the American Society of Civil Engineer’s (ASCE) strategic initiative on sustainability and the Envision rating system. ASCE stands at the forefront of a profession that plans, designs, constructs, and operates society’s economic and social engine – the built environment – while protecting the natural environment.

About the Speaker:
Mr. Michael T. Buechter, P.E., D.WRE is a Program Manager with the Metropolitan St. Louis Sewer District where he leads a diverse team responsible for in-house engineering design and the District’s Small Sewer Contractor Construction Program. Mr. Buechter is a past Director of the Engineers’ Club of St. Louis, Past-President of the ASCE St. Louis Section, Past-Chairman of the local chapter of EWRI and current President of the St. Louis Chapter of MSPE.

If you have any questions or you are interested in presenting at the committee seminars, please contact the committee chair, Siavash Zamiran, at szamiran@meacorporation.com
Geo-Institute of ASCE – St. Louis Chapter

Presents a webinar titled

A Data Base and Recommendations on
320 Failed MSE Walls with Geosynthetic Reinforcement

DATE AND TIME: Tuesday, February 26, 2019
Doors open at 10:00AM for registration
Live webinar from 10:30AM to 12:00PM
Pizza and soda/water will be provided.

LOCATION: Geotechnology, 11816 Lackland Road, Suite 150, St. Louis, MO 63146
Remote access is not available.

COST: $10.00 per person. Payment can be made by cash, credit card, or check (payable to ASCE St. Louis Section).

PDH: Attendees will earn 1.5 PDH

RSVP: Please register by Friday, February 22 at https://goo.gl/8r25D8 (case sensitive)

Who should attend:
Reinforced MSE wall and slope design engineers, general civil, geotechnical and geosynthetic consulting engineers, private property developers and architects, permitting engineers from municipal districts and townships, contractors and installers of these systems, and insurance companies and attorneys.

Topics include:
• Data on 320 quite similar failures (estimated to be about 8% of the total worldwide failures)
• Bring attention to this serious situation with respect to geotechnical and geosynthetic engineering communities
• Four main design and construction issues which are felt to be greatly contributing to the failures
• Use of fine grained silts and/or clay backfill soils
• Poor compaction of these fine-grained soils
• Need for removal of internal drainage and piping systems
• Need for proper surface and adjacent water control

If you’ve signed up and can’t make it, please cancel with Jake Schaeffer (jschaeffer@mps-il.com) or 314-560-9154 by Friday, February 22 or we will have to charge you for the meal.
Geo-Institute – Call for Abstracts

Call for Abstracts

St. Louis Chapter of the Geo-Institute of ASCE Presents

Case Histories Seminar and Student Projects

DATE: Thursday, April 11, 2019
TIME: 5:00 pm to 8:30 pm
LOCATION: Engineers Club of St. Louis, 4359 Lindell Boulevard, St. Louis, MO 63108

Registration includes a buffet dinner. PDH credit will be available.

The Geo-Institute is accepting abstracts for our annual Case Histories Night. The committee is seeking speakers to provide a 60-minute presentation focused on geotechnical engineering projects. Please submit abstracts to Shari Cunningham (Shari@THDdesigngroup.com), Geo-Institute chair.

Student research posters will be on display during the registration/networking period, and selected students will give brief presentations on their topics.

A limited number of sponsorship opportunities are available for this event. If interested, please contact Jake Schaeffer (jschaeffer@mps-il.com), Geo-Institute vice chair.
Younger Member Group Update

From monthly meetings to community service, we’re having a great year so far, and there is still more to come!! Come on out and help us make it the best spring yet!

**Polo Order:** Free for active YMs (attendance at one meeting), and $25 for others. Orders must be submitted by February 10th. [Order Form](#)

Our YMG is looking for potential professional development and/or community service activities. Whether it’s social activities, networking, seminars, technical tours, etc. we want to hear about what would interest you the most. [Younger Member Engagement form](#).

Our SIUE area meeting is coming up this month!
We’re looking forward to our first meeting networking with students!

**February YMG Meeting:**
**Tuesday,** February 12, 2019
The Lake House
2822 N. Center St., 62062
6 pm to 8 pm

*$20 Amazon Gift Card Giveaway for any YMs who offer two ideas for professional development and/or community service activities by February 10.*
See the following page to get our full list of meetings this year!

YM Upcoming Events:
- February 8-9 – CRYMC at the Multi-Region Leadership Conference (Dallas, TX)
- February 23 – SciFest at the St. Louis Science Center
- May 4 – Rebuilding Together

Contact Brandi Jones, YMG Chair, at [bnjones.asce@gmail.com](mailto:bnjones.asce@gmail.com) if you have any questions or comments regarding the YMG Update.

**ASCE Construction Committee Tour**

ASCE Construction Committee Tour to Ben Hur Steel Worx

5319 Shreve Avenue, St. Louis MO 63115

Tour starts at 4pm on March 6, 2019

Space is limited.  
Please contact Anne Werner at awerner@siue.edu.

Please put “ASCE March Tour” and/or “Ben Hur Steel Worx Tour” in the subject line.
EWRI St. Louis News

EWRI St. Louis Announcements

EWRI St Louis Chapter will be holding elections for the position of Secretary/Treasurer. Elections will be held in early summer and the position will be for two years starting October 2019. If you would like to nominate yourself or know of someone interested, please email Robert Holmes at holmesrr@mst.edu.

EWRI St. Louis Chapter is looking for more active engagement for its members. There are several opportunities to interact with your colleagues through monthly webinars, quarterly business meetings, and volunteer opportunities. We are looking for volunteers to serve on both our Spring Seminar (“Water Water Everywhere”) steering committee and Monthly Webinar steering committee. Send email to Robert Holmes (holmesrr@mst.edu) if you have interest.

EWRI St. Louis Monthly Speaker Series Event

The St. Louis Section of EWRI is pleased to announce our monthly webinar on Thursday, February 21 at 11:30 am-12:30 pm.

This presentation will be broadcast live over a webinar. Registration is free to ASCE members, Advance registration is required by Noon Monday, February 18, 2018. Please register online in advance at the following link:

https://docs.google.com/forms/d/e/1FAIpQLSett23vrZ79L3B3VtmV5nxypggVBOXiwBaiPaOJF2ZFRoB4ng/viewform

Registrants will receive detailed login & dial-in information or directions for in-person attendance prior to the event.

Hydrological Alteration and Riverine Ecosystems

Anthropogenic activities such as river modification, dam operation and land use changes have altered the natural hydrologic regime and stream water quality resulting in degraded riverine ecosystems. The quantification of the impact of anthropogenic activities on riparian and riverine systems is important for sustainable environmental management. This presentation focuses on modeling, predicting and quantifying the impact of anthropogenic activities on riverine and ecosystem (aquatic and riparian) processes.

Speaker: Rohan Benjankar is an assistant Professor at Southern Illinois University Edwardsville in the Department of Civil Engineering. His background is Civil Engineering and his experience spans several focus areas within water resources engineering and management and watershed hydrology. He has a particular emphasis on river floodplain physical habitat, aquatic and riparian ecosystems and river restoration. He has published research in several peer-reviewed international journals. His projects have focused on integrated watershed hydrology, river hydraulics and habitat modeling (aquatic and riparian vegetation), fluvial geomorphology, sediment transport, stream water quality, storm water management and urban flood hazard. Rohan began his studies in Nepal and completed his Ph.D. at the University of Idaho in 2009 at the Center for Ecohydraulics Research.

Thank you to our joint seminar sponsor, EDM Incorporated!

Please contact Len Madalon (ljm@edm-inc.com) with any questions, if you are interested in presenting, or have an idea for a topic.
THE ASCE ST. LOUIS SECTION AND EWRI PRESENT

2019 Environmental & Water Resources Institute Spring Seminar

WATER, WATER, EVERYWHERE

Join us for an informative ASCE/EWRI-sponsored seminar addressing current and emerging water-related topics in our region including drinking water, stormwater, and wastewater.

Seminar will be held at:
SAINT LOUIS UNIVERSITY
Il Monastero Room
Monastero Banquet Center
3050 Olive St.
St. Louis, MO

Friday, March 8, 2019

Registration 7:30 AM to 8:15 AM
Program 8:15 AM to 3:45 PM
6 PDHs provided
Program TBA
Continental Breakfast and Lunch included

Cost
$70 for Members
$100 for Non-members
$30 for Students

Online Registration available at the link below:

Registration will be closed Tuesday before the event.

2019 Award Recipients

AWARDS WILL BE GIVEN FOR THE CATEGORIES LISTED BELOW

OUTSTANDING PE IN GOVERNMENT
Tom Blair, P.E.
MoDOT
District Engineer

OUTSTANDING PE IN EDUCATION
Paul Nauert, P.E.
Adjunct Professor
Washington University in St. Louis/UMSL

YOUNG ENGINEER OF THE YEAR
Eric Stauffer, P.E.
Electrical Engineer
Burns & McDonnell

OUTSTANDING PE IN PRIVATE PRACTICE
Allen Minks, P.E.
Senior Consultant
Terracon

ENGINEER OF THE YEAR
Ron Black, P.E.
Manager, Supply Chain and Facilities Continuous Improvement
Ameren
Save the Date for 2019 GeoMO
GeoMO will be an all-day geotechnical conference on May 10, 2019 in St. Louis, Missouri. The event is organized by Missouri University of Science and Technology. Visit https://geomo.mst.edu/ for more information.
Save the Date for 2019 ISE

About the Conference
The conference is designed for professionals in structural engineering to gather in Champaign-Urbana to discuss exciting new developments in the field, gain timely job-related information, network with colleagues, and renew their sense of professional purpose. The participants are a diverse group of engineers from local, state, and federal agencies; consulting and contracting firms; and universities.

Conference Planning Committee
The Conference program was developed by a distinguished group of practicing structural engineers from the Chicago, Central Illinois, and St. Louis regions, in cooperation with the structural engineering faculty of the University of Illinois at Urbana-Champaign.

Professional Development Hours
The conference will provide 6.5 professional development hours (PDH) for professional engineers.

Employment

Horner & Shifrin, Inc. is a Federal Contractor, Equal Opportunity Employer M/F/Disability/Veteran. We are a 100% Employed Owned firm, offer a generous benefits package and named a Top Workplace by the St. Louis Post-Dispatch for 2017 and 2018. If you are interested, you must apply through our website at www.hornershifrin.com/careers. Visits and phone calls will not be accepted. Learn more about us at www.hornershifrin.com.

Building Structural Project Manager - St Louis

YEARS OF EXPERIENCE: 7-10 YEARS

Horner & Shifrin is seeking a driven and goal orientated Building Structural Engineer for the growing Building Services Structural Team. The selected candidate will work with clients and project teams on the design, analysis, and evaluation of structural systems in steel, concrete, timber, and masonry. The ideal candidate will be eager for opportunities in professional and client development.

POSITION REQUIREMENTS:

- Licensed PE, SE preferred
- Ability to perform complex design calculations
- Ability to create construction documents (plans & specifications)
- Proficient in AutoCAD, Revit Structure, Ram Structural System, and structural analysis software
- Excellent verbal and written communication skills
- Must possess a valid driver’s license
- Must be able to pass a background check
- Team player

EDUCATIONAL REQUIREMENTS: M.S. in Civil Engineering with an emphasis in Structural Engineering.

SALARY RANGE: Salary will commensurate with experience.

Building Structural Project Engineer - St Louis

YEARS OF EXPERIENCE: 4+ YEARS

If you are seeking to join a reputable engineering firm that operates by the principles of exceeding the highest standards of integrity, while cultivating a challenging, rewarding and safe environment for our employee-owners, then we want you!

Horner & Shifrin is seeking a driven and goal orientated Building Structural Project Engineer to support our growing Water division. The ideal candidate will have 4+ year’s experience. The selected candidate will work with project managers and teams on the design, analysis, and evaluation of structural systems in steel, concrete, timber, and masonry. The ideal candidate will be eager for opportunities in professional and client development.

POSITION REQUIREMENTS:

- Licensed PE, SE preferred
- Ability to perform complex design calculations
- Ability to create construction documents (plans & specifications)
- Proficient in AutoCAD, Revit Structure, Ram Structural System, and structural analysis software
- Excellent verbal and written communication skills
- Must possess a valid driver’s license
- Must be able to pass a background check
- Team player

EDUCATIONAL REQUIREMENTS: B.S. in Civil Engineering with an emphasis in Structural Engineering. Masters preferred.

SALARY RANGE: Salary will commensurate with experience.
Horner & Shifrin is seeking an experienced driven and goal orientated Business Development Manager for the growing Business Development Team. The selected candidate will be responsible for securing new business opportunities as well as maintaining existing business. The ideal candidate will work closely with and support the leaders in the firm to maximize the effectiveness of client relations.

**POSITION REQUIREMENTS:**
- Comprehensive knowledge of firm’s practice, clientele, goals, policies and procedures.
- Excellent leadership/managerial and mentoring/teaching skills.
- Possess strong business development skills with a proven record of accomplishment of selling on value and building relationships.
- Must possess a high level of professionalism and interpersonal skills to be able to work well with employees at all levels within the organization and maintain all information in strict confidence.
- Must possess attention to detail, ability to balance multiple projects and have strong time management skills.
- Follow through in a consistent manner
- Valid driver’s license
- Must pass a background check

**EDUCATIONAL REQUIREMENTS:** Bachelor degree in Business or related field.

**SALARY RANGE:** Salary will commensurate with experience.

---

**Transportation Project Engineer**

**CLASSIFICATION:** FULL-TIME

**OFFICE LOCATION:** O’Fallon, IL; Chicago, IL

**YEARS OF EXPERIENCE:** 2-10 YEARS

Horner & Shifrin is seeking a full-time Transportation Project Engineer. This position requires 2-10 years of experience. This position is assigned specific, high-responsibility-level tasks on project teams; and are expected to resolve engineering/architectural problems and tasks as they are assigned; with help as needed, from more experienced staff.

**POSITION REQUIREMENTS:**
- Will be trained/proficient in the use of Microstation and Geopack or AutoCAD Civil 3D
- Ability to produce construction bid documents (plans and specifications)
- Proficiency using Microsoft Office software (Outlook, Excel, Word)
- Other duties as assigned

**EDUCATIONAL REQUIREMENTS:** B.S. in Civil Engineering

**SALARY RANGE:** Salary will commensurate with experience.

---

**Transportation Project Engineer**

**CLASSIFICATION:** FULL-TIME

**OFFICE LOCATION:** St Louis, MO

**YEARS OF EXPERIENCE:** 5-10 YEARS

Horner & Shifrin is seeking a full-time Transportation Project Engineer. This position requires 5-10 years of experience. This position is assigned specific, high-responsibility-level tasks on project teams; and are expected to resolve engineering/architectural problems and tasks as they are assigned; with help as needed, from more experienced staff.

**POSITION REQUIREMENTS:**
- Will be trained/proficient in the use of Microstation and Geopack or AutoCAD Civil 3D
Transportation Engineer

CLASSIFICATION: FULL-TIME
OFFICE LOCATION: St Louis, MO
YEARS OF EXPERIENCE: 0-5 YEARS

Horner & Shifrin is seeking a full-time Transportation Engineer. This is an entry-level position and requires 0-5 years of experience. This position is assigned specific tasks on project teams; and is expected to resolve engineering problems and tasks, as needs arise; with help, as needed, from more experienced staff.

POSITION REQUIREMENTS:
- Candidate will work under licensed engineer
- Will be trained/proficient in the use of Microstation and Geopack or AutoCAD Civil 3D
- Ability to produce construction bid documents (plans and specifications)
- Proficiency using Microsoft Office software (Outlook, Excel, Word)
- Other duties as assigned

EDUCATIONAL REQUIREMENTS: B.S. in Civil Engineering
SALARY RANGE: Salary will commensurate with experience.

Transportation Project Manager

CLASSIFICATION: FULL-TIME
OFFICE LOCATION: CHICAGO, IL
YEARS OF EXPERIENCE: 10+ YEARS

Horner & Shifrin is seeking a full-time Transportation Project Manager. This position requires 10+ years of experience. This position is assigned specific, high-responsibility-level tasks on project teams; and are expected to resolve engineering/architectural problems and tasks as they are assigned; with help as needed, from more experienced staff.

POSITION REQUIREMENTS:
- Licensed professional engineer in Illinois
- Interact and communicate with clients, vendors and staff of all levels
- Ability to lead, manage and schedule staff to meet project needs
- Proficiency using Microsoft Office Products (Word, Excel, Access)
- Experience using at least one CADD platform (MicroStation or AutoCAD)
- Knowledge of at least one highway design package (Geopak SS4 or Civil3D)
- Critical thinking and analysis
- Perform transportation engineering analyses and calculations
- Prepare and write engineering and other reports
- Strong client relationships and ability to develop business
- Field visits on rough terrain per project needs
- A valid driver’s license and the ability to drive to and from job sites.
- Other duties as assigned

PREFERRED REQUIREMENTS:
- Experience working directly with the Illinois Department of Transportation or Illinois State Toll Highway Authority
- Existing business development relationships with key staff in Greater Chicagoland area.
EDUCATIONAL REQUIREMENTS: B.S. in Civil Engineering

SALARY RANGE: Salary will commensurate with experience.

Business Unit Leader, Building Services (Mechanical, Electrical, Plumbing & Fire Protection)

CLASSIFICATION: FULL-TIME
OFFICE LOCATION: ST. LOUIS, MO

POSITION REQUIREMENTS:

- Responsible for successfully leading, setting the strategic direction and growing the firm as well as their individual business unit.
- Delivers profit and growth within the business unit.
- Oversees quality control / quality assurance processes within the business unit.
- Monitors trends and developments within the industry and proactively positions the firm to take advantage of opportunities.
- Cultivate a challenging and supportive climate within the business unit to foster a high level of employee satisfaction, performance, growth, and commitment.
- Directly and indirectly supervises employees in the MEP Business Unit. Carries out supervisory responsibilities in accordance with the Firm’s policies and procedures and applicable laws. Responsibilities include interviewing, hiring, training and developing employees; planning, assigning, delegating, and directing work; appraising performance; rewarding and disciplining employees; addressing complaints and resolving problems.
- Regularly reviews workload projections and resources and recommend adjustment as necessary to fulfill commitments.
- Review invoices, cost data, schedules, and budgets with appropriate managers to ensure completion on a timely basis.
- Proactively coordinates with business development staff to maintain a proper level of backlog.
- Identify and convert new business opportunities to contract backlog.
- Direct relationship building, potential project development, proposal development and contracting between the Firm and clients.
- Coordinate and interface with sub-consultants, other internal office and external agencies, as appropriate.
- Perform project manager duties, primarily limited to major projects of high complexity.

EDUCATIONAL AND EXPERIENCE REQUIREMENTS: B.S. in Civil, Mechanical, Electrical, or Fire Protection Engineering; advanced degree in preferred. 15-20 years of significant technical experience in public or private sector. Experience managing a team is required. Existing business development relationships with key staff in area municipalities is preferred.

SALARY RANGE: Salary will be commensurate with experience.
Prairie Engineers, P.C. is seeking a Structural Engineer to join their team.

Prairie Engineers is a full service engineering, geospatial, and environmental science firm with a goal of delivering sustainable infrastructure solutions and maintaining our natural and built environment. We are a woman-owned firm with offices in Columbia, Hillsboro, Peoria, and Springfield, Illinois and Hazelwood, Missouri. The firm provides services to federal, state, and local governments, utilities, industries, and private businesses. Prairie Engineers is a growing company, looking to add a Structural Engineer to their team to assist primarily in the office with project planning, structural engineering design, and construction document development. This position will be a full time position with benefits and a competitive salary based on qualifications. This position is available to be filled in any of our office locations.

Senior Bridge Project Engineer

http://www.hntb.com/careers

Job ID: 1018-19763

For more than a century, HNTB has helped deliver infrastructure solutions that best meet the unique needs of our clients. With client relationships spanning decades, we understand infrastructure life cycles and have the perspective to solve technical challenges with clarity and imagination. We are far more than a design firm. We see and help address far-reaching issues of financing, legislation, design, construction, community outreach and ongoing operations. As employee-owners committed to the highest levels of performance, we enable clients to achieve their goals and inspiring visions.

Just like we are committed to delivering for our clients, HNTB is also committed to delivering for you by offering benefits to protect the health of you and your family, help you balance family and career, and build your savings for retirement. Learn more at https://www.myhntbtotalrewards.com.

Overview
The time is right to join HNTB Corporation! We are seeking a Senior Bridge Project Engineer to lead projects from our St. Louis, Missouri office.

Job Summary
Provides coordination of project execution and control, in a given discipline area, to achieve continuity of purpose within scope, budget, and time schedules from initial start-up through project closeout. Also accountable for handling specific design aspects on projects appropriate to discipline field. Coordinates efforts of assigned design team to ensure completeness and accuracy of design effort. Serves as technical liaison with client on project efforts. Responsible for gross revenue of $1-$2M.

Essential Responsibility
- Responsible for the delivery of project discipline scope elements within budget and schedule.
- Oversees completeness and accuracy of project team’s work. Supervises and guides team to overall project objectives.
- Provides senior-level technical expertise to client on project aspects within the discipline.
- Assists with project management duties.
- Performs other duties as assigned.

Basic Qualification
- Bachelor's degree in Engineering
- 10 years relevant experience

Preferred Qualification/Skills
- Master's degree in Engineering
- PE/AICP

General Work Conditions
Combination Office and Field Environment: Most work is performed in an office environment in which there is only minimal exposure to potentially unpleasant working conditions. Incumbent must have the ability to stand and sit frequently and reach horizontally as well as vertically for overhead use. Work may infrequently be performed at client’s job site, construction trailer, and in the field. Work may sometimes require working in inclement weather, working in a construction site, being exposed to heavy construction equipment and doing extensive walking. Adherence to applicable safety protocol is required.
