President’s Message

President’s Message – September 2013

Wow! It’s hard to believe that this is my last message to you as President of the St. Louis Section. It has certainly been an honor to serve in that capacity for the past year.

I’m sure the theme of this message is not unique but it just seems natural to recap some of the Sections’ accomplishments from the past year and to thank those people responsible for them. It’s amazing how this organization really runs itself. I found that the best way to make sure that things get done is to just get out of the way and let the capable and talented group of committee heads and members do what they do best. Honestly, the support I received from the Society and the initiative of our Section’s dedicated group of volunteers made it pretty hard for me to mess things up. I’d like to express a heartfelt “thank you” to my colleagues on the Executive Board, all of the Committee Chairs and Members, and to all of you Section members for your hard work, support, and dedication to ASCE.

Here are some of the accomplishments of which the Section should be proud:

- Receiving the Outstanding Section Award for the second year in a row
- Winning a History and Heritage Citation from the Society
- Winning the ASCE Section and Branch Diversity Award
- Community Outreach Activities such as: The Girl Scouts’ “The Big Day – Believe in Girls”, Introduce a Girl to Engineering Day, and participating in Ritenour High School’s Annual Engineering Week
- Institute Activities such as: SEI Day, GeoConfluence, and the GeoInstitute’s Case Histories and Student Projects Seminar
- Younger Member Activities such as: Engineer Your Own Success, Trivia Night, Engineering Career Day, Earthquake Awareness Day, and Rebuilding Together
- The Sustainability Committee’s Earth Day event
- SIUE hosting the Mid-Continent Student Conference
- Revising the Section’s By-Laws and Constitution
- Completing the first-ever Missouri State Infrastructure Report Card and presenting it to the public at a press conference at St. Louis University

And the groundwork has been laid for a bigger and better 2013-2014. I’m really looking forward to the 100th Anniversary Gala, the 2014 Younger Members Council and the 2014 Multi-Regional Leadership Conference. Thanks to all of you working to make those events happen.

Lastly, I’d like to wish “good luck” to our new President, Marc Bachetti, welcome our new Director, Brent Vaughn to the Board, and say a sad “good-bye” to out-going Board member, Elise Ibendahl. She has been an invaluable member of the Board and she will be missed.

October Luncheon

The next ASCE Luncheon will be on Tuesday, October 8, 2013 at the Engineers’ Club. Deanna Venker, MoDOT’s Area Engineer for the City of St. Louis, will be giving an overview of MoDOT’s ongoing work on the downtown freeway system (New Mississippi River Bridge, City Arch River 2015, and Poplar Street Bridge).
Things I Think (When I’m Not Thinking About Engineering)

- I see the Cardinals winning the Central Division but losing to the Dodgers in the League Championship Series.
- I think the Rams will be better this year but will miss the playoffs.
- I highly recommend the TV series “The Bridge” on FX Network. I’m also looking forward to another season of “The League” and “Top Chef, New Orleans” this fall.

I’d also like to thank all of you for indulging my “thoughts”. I know some of you liked them, some not. For better or worse, I thought it would be a good way to add a personal touch and for you all to know me a little bit better.

Until next month, Steve.

Congratulations to the Graduation Classes of 2013!

University of Missouri Columbia

Southern Illinois University Carbondale
Abdulkarim Alshammari, John Dahmer, Ebrahim Alrazni, Kristopher Dunn, Joseph Burke, Kyle Goetzelmann, J’Naye Fondren, Gregory Guebert, Zachary Humphress, Jeremy Curran, Thomas Keys, Jake Menold, Jared Harp, Jonathan Knoll, Daniel O’Dell, Elise Hartmann, Keng Gein Lim, John Reynolds, Chee Yap Ng, Kevin Maloy, Robert Stricker, Daniel Smith, Steve Matuscak, Dan Wabomnor, Anthony Spolar, Myles Scott-Stirn, Adam Whicker, Michael Tullis, Tyler Will

Congratulations were extended to students graduating from Saint Louis University and Southern Illinois University Edwardsville in the May issue.

Good Luck and don’t forget ASCE once you’ve graduated!

History & Heritage Committee
ASCE has announced a new History & Heritage webpage at [http://www.asce.org/People-and-Projects/History-and-Heritage/History-and-Heritage-Program/](http://www.asce.org/People-and-Projects/History-and-Heritage/History-and-Heritage-Program/). In an email from Carol Reese of the ASCE History & Heritage Committee, the new webpage “describes all the different aspects of ASCE’s history and heritage program” and “includes links to all of the relevant areas from the entire website.”
100th Anniversary Planning Committee

HELP WRITE OUR SECTION’S HISTORY

Next year is the St. Louis Section’s 100th anniversary. The 100th Anniversary Committee is planning to publish a large-format, hard cover, full color history book celebrating the achievements of civil engineering to the region of the St. Louis Section. The book will highlight projects, historic companies and government agencies, events and individuals. The articles will be mostly photos or drawings, with non-technical text. The audience is the general public. We need gifted writers and historic photos to make this book truly remarkable. Projects have to be in the boundaries of the St. Louis Section (see our website for a map). Companies must have their headquarters in the St. Louis Section to be considered for a separate article. If a company was the designer or general contractor for a significant project – such as one of the St. Louis Section’s Outstanding Civil Engineering Projects – then that company, or historic individual, may have an accompanying sidebar. Authors will be acknowledged. If you are interested, email Jeff Fouse at jfouse@reitzjens.com to register your article and to receive the space and format guidelines. We would like to receive proposals for articles by October 15, 2013. We particularly need articles on projects, etc. outside of the immediate St. Louis area!

This project is funded in part by the St. Louis Section and national ASCE. We will accept donations to help offset the cost, so that we can place this book free to area schools and libraries and at low cost to our members and the public. Major financial contributors will be acknowledged in the book.

GEOCACHING/WAYMARKING TO NOTABLE CIVIL ENGINEERING SITES

Among the several events and activities being planned for the 100th Anniversary is to develop a list of notable civil engineering projects and sites located in or near the Section’s area and set them up for geocaching or waymarking. If you aren’t familiar with geocaching or waymarking, they are similar GPS-based hobbies popular with people around the world who enjoy travelling, exploring and being outdoors, and is a particularly enjoyable for family activity. Generally, the GPS-equipped participant visits a website that allows them to search for coordinates and descriptions of places of interest. In waymarking, the coordinates lead the participant to the specific location with perhaps an opportunity to pick up more information, maybe clues about the project or a next location. Geocaching goes a little further in that there is typically a small container hidden at the specified location and participants can log their visit in a tiny notebook and exchange small objects found in the cache container. The possibilities are many. Some of the sites popular in the hobby include www.geocaching.com and www.waymarking.com.

Our concept for this 100th Anniversary activity is to set up a webpage specifically for this, and it would be an on-going project with minimal maintenance. We would determine coordinates that the general public could use to find civil engineering points of interest using a GPS receiver. Relevant information about the projects or sites would also be included on the website for the visitors’ education about civil engineering.

Your help is needed to make this an interesting and fun activity for people wanting to visit and learn about the projects. We are looking for your input for:

- Compiling the list of projects and sites.
- Writing interesting and concise descriptions about the projects.
- Determining safely accessible vantage points to view or more physically experience the projects.
- Establishing and verifying the GPS coordinates.

For more information about this project, please contact Brent Vaughn at bvaughn@members.asce.org
Younger Member Group
Welcome back ASCE YMs!

It feels like an eternity since we had a meeting. Let’s correct that, shall we?

September YMG Meeting:
Tuesday, September 24, 2013 6-8PM
International Tap House
1711 S. 9th St, St. Louis, MO 63104
www.internationaltaphouse.com
RSVP to Britt Marron at marronbm@pbworld.com

RSVP to who? Well, glad you asked. In case you don’t know, the YMG committee chair position serves a two-year term. My two years are up. Over the past two years, the number of YMs attending meetings has steadily increased. We have expanded our volunteer obligations, now working very closely with the Science Center’s Engineering Career Day, as well as MSPE’s E-week held there, too. We have had a few scouting exhibits. Our trivia night is now an annual event. We also have provided benefit from the trivia night to help develop our careers and boost the student groups’ Mid-Continent Regional Conference. And we have made sure to serve our community through Rebuilding Together.

Thank you to everyone who has come out to a meeting, a volunteer event, or contacted me to help out in some way with the Younger Member Group these last two years. It has been a fantastic ride.

A little bit about Britt:
Britt Marron is a Professional Engineer in the transportation sector. She graduated from Southern Illinois University Edwardsville in 2007 with her Bachelor’s degree and then 2013 with a Master’s. Between 2007-2013, Britt worked for CH2M Hill as a roadway designer, acquiring her professional license in 2012. Since February, she has joined Parsons Brinkerhoff as a project engineer.

Britt has been an active member of ASCE YM since 2010. She has headed up the community engagement effort for the group with Rebuilding Together St. Louis as a House Captain along with other various volunteer events like e-week. On top of these efforts, she earned the Helene M. Overly Memorial Scholarship from WTS in 2013. Britt looks forward to building on the great work that past chairs have done for the younger members.

But that’s not the only change in 2013.

Andy Mueller will be heading up the Community Service subcommittee. He’ll be looking at ways to further involve the YMG in activities giving back to our community.

Melantha Norton will be the new Correspondence Secretary. She’ll be in charge of submitting our Annual Report to the Society.

Alison Graves will be our new webmaster. She’ll make sure our Facebook page (look us up!) and ASCE St. Louis webpage <click here!> is up to date with our critical information.

So, here’s a preview of a few things on tap for this year:
Trivia Night – the 4th Annual Trivia Night will be Saturday December 7th at the Kirkwood Community Center
January 10-11, 2014 – Central Region Younger Member Council HERE in St. Louis!

February 16-22, 2014 – E-Week

Spring 2014 – Rebuilding Together St. Louis

See you Tuesday, September 24!
-Jordan Pettibone, EI

YMG Chair (2011-2013)
Networking

Dear ASCE / ASLA Members and Friends,

It is golf tournament time again, and we want to start by saying thank you to those of you who helped make last year’s ASCE / ASLA Golf Tournament a great success. We believe this partnership of the American Society of Civil Engineers and the American Society of Landscape Architects is a natural partnership that has increased the benefits for all who participate, and provide an enjoyable opportunity for our members and friends to interact outside the office. Our noon start has been a success the last two years, but please note we have a slight change in starting time this year to accommodate the golf course, so please pay attention to the shotgun start time on the registration form.

ASCE-St. Louis and ASLA St. Louis Chapter are committed to educating the youth of the St. Louis community about the roles of engineers and landscape architects in our lives, and encourage students to pursue these professional careers. The golf tournaments help support these programs and this will not change. The following is a brief summary of the programs supported by this tournament for each chapter.

ASCE annually presents scholarships to members of the section student chapters at SIU-Edwardsville, SIU-Carbondale, University of Missouri - Columbia, and Missouri University of Science and Technology. Section members also participate in programs such as MATHCOUNTS, Zoom Into Engineering, Future Cities and Building Big as well as volunteering for classroom visits and career fairs.

ASLA supports the The Jerry Loomis Scholarship in Landscape Architecture, sponsored by the American Society of Landscape Architects St. Louis Chapter with a portion of the proceeds. Additional proceeds are used to support the chapter and advance the profession and educate youth to the opportunities presented within landscape architecture.

We want to thank you for your participation and support, and look forward to seeing you at Crystal Springs Quarry Golf Club on Friday September 20, 2013. A registration form with additional information regarding the tournament and involvement opportunities is attached. Space is limited so we encourage you to ensure your spot in the tournament now!

If you have any questions please give us a call.

Sincerely,

The 2013 Annual ASCE / ASLA Golf Tournament Organization Committee

Matt Glisson, ASCE
Chris Moon, ASLA
Felipe DeNarvaez, ASLA
Jay Wohlschlaeger, ASLA
2013 FRIDAY SEPTEMBER 20, 2013
CRYSTAL SPRINGS QUARRY GOLF CLUB
ANNUAL ASCE / ASLA GOLF TOURNAMENT

☐ I would like to enter the 2013 ASCE / ASLA Golf Tournament / $100 per person or $400 for team of 4
Entry fee includes: Green fee and cart, lunch, refreshments on the course, range balls, $10,000 hole-in-one contest and other prizes / Dinner and Awards
Entry Deadline: Thursday September 12, 2013 / Space is limited - payment must accompany entry to reserve your spot

Registration Information 10:30 AM Check-In / 11:00 AM Lunch / 12:30 PM Shotgun Start - Scramble
Contact Name: ____________________________ Company: ____________________________
Address: __________________________________________ Email: ____________________________
Phone: __________ Email: ____________________________

☐ I would like to be a Refreshment Sponsorship - $600.00 (4 total)
Includes: Recognition in print at registration table, on refreshment carts and stations located throughout the course.

☐ I would like to be a $10,000 Hole-in-One Sponsorship - $300.00 (4 total)
Includes: Recognition in print at registration table and on sign located at hole-in-one holes on the course.

☐ I would like to be a Lunch & Dinner Sponsorship - $250.00 (8 total)
Includes: Recognition in print at registration table and serving and dining tables for lunch and dinner.

☐ I would like to be a Hole Sponsorship - $150.00 (unlimited)
Includes: Recognition in print at registration table, on refreshment carts and stations located throughout the course.

☐ I would like to donate items for the Golf Gift Bags / Door Prize Drawing to promote my business to the players. 100 bags will be assembled with identical contents, please plan on donating 100 of the identical item for the bags (koozies, rain ponchos, golf tees, golf balls, coupons, water bottles, etc.) Door prize drawings occur at the awards reception, donated items could be golf related or more general in nature. Any items to be donated should be coordinated with the planning committee and available for delivery / pick-up by September 4, 2012.

☐ Sign me up for ___ Team(s) of Four $400 or ___ Player(s) at $100 each or ___ Dinner(s) Only at $20 each

GeoConfluence 2013
November 7, 2013
Geotechnical and Geo-Environmental Conference
St. Charles Convention Center
St. Charles, Missouri

The St. Louis Chapter of the Geo-Institute is joining with the University of Missouri-Columbia and the Missouri University of Science and Technology to host this year’s Geo-Institute Cross USA Lecturer for the third annual geotechnical engineering and geo-environmental conference. This annual conference will include technical topics and case histories focused on the geotechnical engineering and geo-environmental industry. This one-day (7:30 AM to 5:00 PM) conference is open to all and is scheduled for Thursday, November 7, 2013.

Attendees will earn 7 PDHs.

Tentative Speakers
1. Geo-Institute’s Cross-USA Lecturer
2. Jason Buenker – Landslide Stabilization Using Horizontal Directional Drains
3. Dr. Roy Borden – Design of Aggregate Piers
4. Navid Jafari – Detection and Movement of Landfill Fires
5. MS&T Student Presentation – TBD
6. UM Student Presentation – TBD
8. Dr. Tim Stark – Drilled Shaft Capacity in Shale
GeoConfluence 2013

Geotechnical and Geo-Environmental Conference
Thursday, November 7, 2013 • St. Charles Convention Center
St. Charles, Missouri

Registration Information

Please register online at http://www.eventbee.com/v/geoconfluence/boxoffice or follow the instructions on the registration form by mailing the completed form with full check payment to Greg Hempen at the address listed.

Please email a copy of your completed registration form to Greg.Hempen@URS.com

Professional Development

Engineers’ Club of St. Louis

PRESENTS:

SS3 Corridor Modeling with OpenRoads Technology

Sign up for the SS3 Corridor Modeling with OpenRoads Technology Workshop to be presented at the Engineers’ Club of St. Louis. This workshop provides Bentley civil users with initial training on the new Corridor Modeling capabilities. If you have mastered SS2 Roadway Designer, nothing is lost; it just got a lot easier and more interactive. The new streamlined Roadway Designer tools are here… A robust workspace delivered with SS3 allows users to get started right out of the gate and unleash the power of OpenRoads! For all Bentley civil users.

“OpenRoads technology represents the continued evolution of merging functionality for Bentley’s road design, drainage analysis and design, data input and reduction, and bridge modeling products. This shared technology is embedded in InRoads, GEOPAK, MXROAD, and PowerCivil. It expands these products to include information-rich 3D modeling integrated with CAD, mapping, GIS, and business tools like PDFs, i-models, and hypermodels.”

Check out the latest news article from AEC Magazine:

There will be a Q&A session after the Workshop (MoDOT and IDOT standards will be discussed)

PRESENTER:

MR. DAVE HOERNER, PROFESSIONAL SERVICES CONSULTANT, BENTLEY SYSTEMS

At:
The Engineering Center
4359 Lindell Blvd. – St. Louis Missouri, MO 63108
Wednesday, October 23, 2013
Registration 7:00 AM to 8:00 AM
Program 8:00 AM to Noon
Continental Breakfast and Lunch Included

Cost:
$50 per person for Engineer Club and ASCE Members
$75 for non-members
Pay by cash or check at door, make checks payable to “The Engineering Foundation of St. Louis”
Please RSVP with:
Kurt Krispin at kurt.krispin@engineersclub.net Or call 314.533.9333
Reservations limited to 100 people, no shows will be charged

A limited number of sponsorship and display opportunities are available at a cost of $100
Those interested in sponsorship please contact
Michael Buechter mbuec@stlmsd.com
Or call 314.768.2772

4 PDH’s to be provided
Engineers’ Club of St. Louis

PRESENTS:

CONSTRUCTION SITE SAFETY

Trench accidents, falls and a careless attitude can lead to unfortunate construction site realities. Thankfully many of these issues can be prevented by establishing a sound Health Safety and Environmental (HSE) culture and careful attention with pre-planning work tasks. Join the Engineers’ Club for an informative seminar which will cover some of the HSE requirements to be implemented during construction of a Project. The objective of the Seminar is to provide information in the development of an effective and efficient safety culture; to address trench/excavation safety; to discuss fall protection; and to improve temporary traffic control plan safety. This information will aid in the prevention accidents, mitigate risks and help the attendee to further understand occupational health and safety requirements. This seminar will be of use to owners, designers and construction staff.

PRESENTER:
MR. STEVEN J. WEHRSPANN, CSP, CH2M HILL

Steven J. Wehrspann has over seventeen years of experience in construction, utilities, facilities, and research operations and is a Certified Safety Professional through the Board of Certified Safety Professionals. He is currently a Regional Health, Safety and Environmental Manager for CH2M HILL, where he develops project-specific HSE programs and procedures for design, program management, construction management as well as multimillion-dollar design-build construction projects. He provides guidance to design staff for including safety elements into design for constructability and end user safety and well as project management regarding program implementation to reduce risk and limit liability. He also conducts HSE audits and provides leadership for corrective actions.

At:
The Engineering Center
4359 Lindell Blvd. – St. Louis Missouri, MO 63108
Friday, November 1, 2013
Registration 7:00 AM to 8:00 AM

4 PDH’s to be provided
The 56th Annual Missouri S&T Asphalt Conference will be held on Tuesday and Wednesday, December 3-4, 2013 at the Missouri University of Science & Technology.

The conference should be of interest to contractors, public agencies, consulting engineers, testing labs, aggregate producers, asphalt binder suppliers, and equipment technical reps.

For conference program information contact Dr. Dave Richardson, Conference Director (573-341-4487; richardd@mst.edu) and for registration information contact Distance and Continuing Education, Room 216 Centennial Hall, 300 West 12th Street, Missouri S&T, Rolla, MO, 65409-1560, (573-341-6222; dce@mst.edu).

### Employment

**Traffic Engineer**

Kuhlmann design Group, Inc. ([www.kdginc.com](http://www.kdginc.com)) is seeking candidates for the position of Civil Traffic Engineer. Candidate must be a licensed P.E. in Missouri, or able to become licensed, as well as a licensed P.T.O.E. with four to ten years experience in Traffic and Transportation. Familiarity with site and transportation design elements and standards preferred. Candidates should possess a good working knowledge of HCS (Highway Capacity Software), Synchro, CADD, Civil 3D Design Software, experience using MicroStation and GeoPAK a plus.

Competitive benefit package.

Please send resumes and cover letter to personnel@kdginc.com, reference the ASCE posting, as well as the position for which you are applying.

EOE - D/M/F/V
To submit items to the newsletter...

Please try to get all announcements for placement in the newsletter to the Newsletter Editor by the 15th of the month prior to publication. Items may be sent via e-mail to Brent Vaughn at bvaughn@siue.edu. MS Word files are the preferred file type. PDF files are also acceptable but may not look as sharp when inserted into the newsletter and hyperlinks might not carry through to the final version. For multiple page announcements, please consider providing a single-page flyer, concisely worded, with links provided to ancillary pages such as registration forms or other attachments. Also, please clearly include in the email subject line a concise title for the announcement and desired month(s) of publication.

Most news items will be available on the Section’s Web Page, which can be reached via the link on ASCE National Website (www.asce.org). Click on “Geographical and International Units” to link to the Section or go directly to our page at: http://sections.asce.org/stlouis/index.html. The Section’s Website Editor is Jeff Smith e-mail: JESmith@HNTB.com or via feedback directly from our website.

For more information and updates see our Web Page: Http://sections.asce.org/stlouis/index.html

This newsletter will be sent to all Section members via e-mail. Delivery of the newsletter hardcopy by First Class mail will be made upon request. Members have the responsibility to keep their contact information in the ASCE national database up to date. Please note that the St. Louis Section is only provided with members’ PRIMARY information on file at the Society level. To ensure that we can contact you, please edit your PRIMARY information to contain the information where you would like the section to contact you and how you would like your information to appear in our annual roster.

Please be sure to keep your PRIMARY contact information up-to-date by contacting ASCE at http://www.asce.org, or call 800-548-ASCE (2723).
