Two Technical Meetings

19 March 1981 - Groundwater Pollution Seminar -

Sponsored by the VTC Civil Engineering Chapter. We plan to have an afternoon seminar, running from about 3PM to 6PM and follow up with a dinner. We are trying to involve individuals from the State, EPA & Private firm. If you have ideas or can help, call Bob Norton at VTC.

23 April 1981 - Low Head Hydropower Seminar.

This one is tentatively scheduled for the White River Junction area so we can get members from all over the state. Again we will try to have a 3PM to 6PM time frame for the seminar and follow it by a Social Hour & Dinner Meeting. If you have any ideas or suggestions get in touch with Morris Root, at Dufresne and Henry in Springfield, Vt.

May 1981 - We will try to have a Dinner Meeting about the middle of the month. If you have a suggestion call one of the officers.

We now have a program committee to help plan meetings. Charter members are: Bob Norton (VTC) & Jim Olsen (UVM). We need two or three more members to help.

The Section needs a volunteer to become an officer (Treasurer) next fall. Traditionally, you will hold all four offices over a four year period. If you are interested get in touch with any of the officers. If you volunteer soon we would like to send you to a management training conference in N.Y. sponsored by ASCE (early March).

If you have anything of interest send it to me:

John Van Domelen
Norwich University
Northfield, VT 05663

I'll try to get a short newsletter out again in a month or two.
