

National Award Recipients from Wisconsin Section

The objective of the honors program of the society is the advancement of the engineering profession by emphasizing exceptional service through research, publication, or career achievement.

Distinguished Members

Awarded to a person who has attained acknowledged eminence in some branch of engineering or in the arts and sciences related thereto, including the fields of engineering education and construction.

General Douglas MacArthur–1946	Lloyd Rader–1969	Lloyd Knapp–1973
Herbert Goetsch–1987	Charles Salmon–1994	Keith Faherty–1995
Jeffrey S. Russell–2009	James M. Fisher–2012	Tuncer B. Edil–2013

Thomas Fitch Rowland Prize

The award is given to authors whose papers describe in detail accomplished works of construction or which are valuable contributions to construction management and construction engineering (established in 1882).

Kevin D. Swiggum–1996	Jeffrey S. Russell–1996	Lawrence C. Bank–2002
-----------------------	-------------------------	-----------------------

Collingwood Prize

The prize is awarded annually to the younger member who has authored a paper describing an engineering work with which the author has been directly connected or recording investigations contributing to engineering knowledge to which the author has contributed some essential part, containing a rational digest of results (established in 1894).

Jeffrey S. Russell–1991	Craig Benson–1994
-------------------------	-------------------

Rudolph Hering Medal

The medal is awarded to the authors of the paper which contains the most valuable contribution to the increase of knowledge in, and to the advancement of, the environmental branch of the engineering profession (established in 1924).

W. C. Boyle–1975	P. M. Berthouex–1975
------------------	----------------------

Waldo Smith Hydraulic Fellowship

The purpose of the award is to encourage research in the field of experimental hydraulics (established in 1938).

Peter L. Monkmeier–1955	John A. Hoopes–1961
-------------------------	---------------------

Daniel W. Mead Prize for Younger Members

The prize is awarded annually on the basis of papers on professional ethics. Each year the specific topic of the contest for the forthcoming year is selected by the Committee on Younger Members (established in 1939).

Glenn Koepp–1976	Michael D. Mucha–1993	Brad Jansen–2011
Donald Buettner–1967	Julie L. Hoppe–2001	

Daniel W. Mead Prize for Students

The prize is awarded annually on the basis of papers on professional ethics. Each year the specific topic of the contest for the forthcoming year is selected by the Committee on Student Activities (established in 1939).

Alfred C. Ingersoll–1942

Tamara Larson–2002

Karl Terzaghu Award

This award was established by the Soil Mechanics and Foundations Division (now the Geo-Institute) of the Society by the solicitation of gifts from the many friends and admirers of Karl Terzaghi, Hon.M.ASCE (established in 1960).

Tuncer B. Edil–2013

Karl Emil Hilgard Hydraulic Prize

The award is given to the author of a paper that is judged to be of superior merit, dealing with a problem of flowing water, either in theory or practice (established in 1939).

John A. Hoopes–1972

Ernest E. Howard Award

The award is made annually to a member who has made a definite contribution to the advancement of structural engineering in research, planning, or design or construction including methods and materials (established in 1954).

Ralph E. Boeck–1956

Thomas A. Middlebrooks Award

The award is made to the author of a paper published by the society that is judged worthy of special commendation for its merit as a contribution to geotechnical engineering (established in 1955).

Craig Benson–1995

Tuncer B. Edil–2013

Edmund Friedman Professional Recognition Award

This recognition is awarded annually to a member of the society who is judged to have contributed substantially to “the science and profession of engineering,” as defined by the society’s constitution (established in 1960).

Lloyd D. Knapp–1962
Rajan I. Sheth - 2008

Herbert A. Goetsch–1977

Luther W. Graef–1991

Civil Government Award

The award is made to those members who have contributed substantially to the status of the engineering profession by meritorious public service in elective or appointive positions in civil government (established in 1963).

Lowell Jackson–1987

Walter L. Huber Civil Engineering Research Prize

Research prizes are to be awarded to members of the society in any grade for notable achievements in research related to civil engineering (established in 1964).

John A. Hoopes–1972

Lawrence C. Bank–1999

Charles S. Melching–2001

Jeffrey S. Russell–1996

Craig H. Benson–2000

Robert Ridgway Student Chapter Award

The award is made annually to the single most outstanding student chapter (established in 1965).

UW–Platteville–1972

UW-Platteville-2018

Harland Bartholomew Award

The award is made to the person who is judged worthy of special commendation for contributions to the enhancement of the role of the civil engineer in urban planning and development (established in 1968).

Kurt Bauer–1970

Surveying and Mapping Award

The award is made annually to the individual who has made a definite contribution during the year to the advancement of surveying and mapping (established in 1969).

Eldon Wagner–1979

Kurt Bauer–1994

Edmund Friedman Young Engineer Award for Professional Achievement

This recognition is awarded annually to younger members of the society who are judged to have attained significant professional achievement (established in 1972).

Jeffrey S. Russell–1993

Brian M. Udovich–2009

Kenneth R. Mika–2016

CAN-AM Civil Engineering Amity Award

The award is made annually to a member of the American Society of Civil Engineers or the Canadian Society for Civil Engineering for either a specific instance that has had continuing benefit in understanding and good will or a career of exemplary professional activity that has contributed to the amity of the United States of America and Canada (established in 1972).

C. Allen Wortley–1998

William H. Wisely American Civil Engineer Award

The award recognizes individuals who have exhibited continuing efforts to better the history, tradition, developments, and technical and professional activities of the Society (established in 1983).

Jeffery S. Russell–2005

Wilbur S. Smith Award

The award is made to the person who is judged worthy of special commendation for contributing to the enhancement of the role of the civil engineer in highway engineering (established in 1984).

Ronald C. Sonntag–2003

ASCE Presidents’ Medal

The medal recognizes the accomplishments and contributions of eminent engineers to the profession, the society or the public (established in 1986).

Lowell Jackson–1988

Jeffrey S. Russell–2003

Richard R. Torrens Award

The award honors volunteer ASCE Journal editors who make outstanding contributions to the society’s publications program (established in 1986).

Lawrence C. Bank–2001

Phillip R. Hoffman Award

Recognizes the individual who has made a definite contribution during the year to the field of hydroelectric generation-pumped storage (established in 1987).

Gabor M. Karadi–1989

Shortridge Hardestry Award

The award is given annually to the individual who has contributed substantially in applying fundamental results of research to solution of practical engineering problems in the field of structural stability (established in 1987).

Donald R. Sherman–2000

Harold R. Peyton Award for Cold Regions Engineering

The award is made to a member of the Society who has made outstanding contributions to cold regions engineering or to a basic understanding of cold environments (established in 1988).

Tuncer B. Edil–1989

C. Allen Wortley–1989

C. Allen Wortley–1997

Arthur Casagrande Professional Development Award

The award is given in recognition of outstanding accomplishments, as evidenced by completed works, reports, or papers in the field of geotechnical engineering (established in 1989).

Craig Benson–1995

ASCE Journal of Computing in Civil Engineering Best Paper Award

Teresa Adams–1994

ASCE Computing in Civil Engineering Award

Teresa Adams–2009

Puerifoy Construction Research Award

Jeffrey S. Russell–2010

ASCE Younger Member Group Award for Small Groups

Wisconsin Section Southeast Branch Younger Member Group (WISE YMG)–2009

Wisconsin Section Southeast Branch Younger Member Group (WISE YMG)–2011

Wisconsin Section Southeast Branch Younger Member Group (WISE YMG)–2012

ASCE Younger Member Group Award for Outstanding Website for Small Groups

Wisconsin Section Southeast Branch Younger Member Group (WISE YMG)–2009

Wisconsin Section Southeast Branch Younger Member Group (WISE YMG)–2010

ASCE Younger Member Group Best Website Certificate of Commendation

Wisconsin Section Younger Member Group–2006

National Historic Civil Engineering Landmarks in Wisconsin

The Historic Civil Engineering Landmark Program recognizes historically significant civil engineering projects, structures, and sites. Three projects in Wisconsin have been recognized as landmarks.

Milwaukee Metropolitan Sewage Treatment Plant, Milwaukee

Started in 1919, this is America's earliest large-scale activated sludge-type municipal sewage treatment plant. Because activated sludge proved to be a more successful method of environmental recycling, this plant was a major improvement over other contemporary treatment methods and an advance in municipal sanitary engineering. Many other municipalities have adopted its system of sewage treatment. The activated sludge process was selected because studies at the experimental station indicated better clarification, bacterial removal, solids removal, freedom from nuisance (odors for example), rate of purification per unit area, and the opportunity to use the water sludge in the production of fertilizer. The first sewage treatment plant, located on Jones Island, was designed to treat 85 million gallons of sewage daily. It began treating waste in 1925. The plant was expanded to treat an additional 115 million gallons of sewage daily and was put into operation on December 3, 1935.

Designated in 1974.

Vulcan Street Plant, Appleton

When it began operation in September 1882, this plant was the first Edison hydroelectric central station to serve a system of private and commercial customers in North America. This project was the beginning of cooperation among civil, mechanical, and electrical engineers to provide power for the United States. The Vulcan Street Plant was unique in linking a relatively sophisticated water-supply system consisting of flumes, wooden penstocks, and head-gate controls installed to regulate the water pressure powering the plant's turbines with the ongoing development of Edison generating systems to successfully demonstrate the practical application of water power in generating electrical power.

Designated jointly with the American Society of Mechanical Engineers and the Institute of Electrical and Electronic Engineers in 1977.

Marshall Building, Milwaukee

A pioneer of reinforced concrete construction, Claude A.P. Turner designed the Marshall Building's structure. It is the oldest extant example of Turner's "mushroom" flat-slab system, which transformed the design and construction of reinforced concrete floors worldwide.

Designated in 2002.

Past Wisconsin Section Outstanding Civil Engineering Achievement Awards

These awards recognized civil engineering achievements for projects located within the state of Wisconsin. The awards are given for the achievement, not to an individual, so that the many engineers who have worked on the particular projects are recognized as contributors. The construction cost of the project is considered only to categorize the entries. The project categories are currently defined as follows:

Category A, construction cost under \$2,000,000

Category B, construction cost over \$2,000,000 and under \$10,000,000

Category C, construction cost over \$10,000,000 and under \$20,000,000

Category D, construction cost over \$20,000,000

Nominations must be submitted to the Wisconsin Section Secretary not later than June 1 of the calendar year covering the achievement award.

Past Wisconsin Section Distinguished Service Awards

To recognize the importance of service to the community and people in general, while attaining a high professional standard of civil engineering conduct, accomplishment, and service, the Wisconsin Section Board of Directors on June 26, 1975, authorized the establishment of the Distinguished Service Award. Nominations must be made to the Secretary on or before June 1 of each year for referral to the Nominations Committee.
