Suggestions from Sept, 2016 Board Meeting:

- CSCE could ask applicants to submit material for the PowerPoint slide show or videos for display at the ACE Awards.
- CSCE is looking for ways to engage Life Members and Past Presidents in the ACE Awards. Suggestions include asking them to review the ACE Awards applications and having a Past President host the ACE Awards in the future. However, for the 2017 ACE Awards, CSCE would be interested in having Quinnipiac University civil engineering professor John Greenleaf return as host of the event.
