b-cubed engineering llc
Structural Engineer/Project Manager
Job Posted: October 6, 2021

Established Structural Engineering firm with diversified projects portfolio, seeking talented, self-starter Structural Engineer/Project Manager to join our office located in Westport, CT.

Our projects range from new buildings to renovation of both commercial and residential structures, to structural assessments of parking garages and high rise buildings (NYC FISP-LL 11), forensic engineering, peer reviews, etc. Projects include steel/concrete/cmu commercial projects and conventional timber high-end residences.

As a Structural Engineer/ Project Manager you will be responsible for:

- Scope definition, project scheduling, budget administration and quality control
- Managing projects from inception to construction administration, including meeting with clients
- Lead/direct structural staff in calculations, drawing production & specifications

JOB REQUIREMENTS

Ideal candidates must have the following qualifications:

- PE and 5+ years experience in sectors and uses listed above
- Bachelor's degree in Structural Engineering, Master's preferred
- Design of steel, concrete, cmu and timber structures
- Capable of managing multiple projects
- Knowledge of structural engineering software is essential, RISA preferred
- Intimate knowledge of IBC, ACI & AISC

BENEFITS

We offer an extremely competitive salary, life insurance, retirement plan, flexible work schedule, bonus incentives, medical and dental/vision coverage.
