

UNIVERSITY OF HARTFORD

COLLEGE OF ENGINEERING, TECHNOLOGY, AND ARCHITECTURE

Dear Colleague:

July 28, 2021

As part of the master's degree in Civil and Environmental Engineering programs, the Civil, Environmental, and Biomedical Engineering Department at the University of Hartford is offering graduate evening courses aimed at creating educational opportunities for working engineers to obtain their master's degree on a part time or full time basis. These courses could be taken in person or remote. Fall Semester starts on August 23rd and the following courses will be available if there are enough students registered:

Hazardous Waste Management	CE 525	Tuesdays	7:30 – 10:00	pm
Structural Steel Design II	CE 542	Wednesdays	7:30 – 10:00	pm
Adv. Mechanics of Materials	CE 500	Mondays and Wednesdays	6:00 – 7:15	pm
Finite Element Analysis	CE 507	Thursdays	5:00 – 7:30	pm

For detailed course description, please consult course catalog at:

https://catalog.hartford.edu/preview_program.php?catoid=20&pooid=4411&returnto=1860

Prerequisite: Successful completion of an undergraduate civil engineering program with undergraduate courses in structural analysis, concrete design, soil mechanics, and transportation engineering. You need not be admitted to the program in order to take these courses as long as the prerequisite requirements are satisfied. Applicants to the graduate program may enroll for up to 6 credits on a non-matriculated basis prior to making formal application for admission. Grades of courses taken will be considered in the review of the application.

If you or anyone else in your organization are interested in any of the above courses, please contact me at 860-768-4032 or the graduate program manager, Laurie Granstrand at 860-768-4858.

Sincerely yours,

Saleh Keshawarz, Ph.D., P.E.
Professor and Chair
