

UNIVERSITY OF HARTFORD

COLLEGE OF ENGINEERING, TECHNOLOGY, AND ARCHITECTURE

Dear Colleague:

November 27, 2022

As part of the master's degree in Civil and Environmental Engineering programs, the Civil, Environmental, and Biomedical Engineering Department at the University of Hartford is offering graduate evening courses aimed at creating educational opportunities for working engineers to obtain their master's degree on a part-time or full-time basis. These courses could be taken in person or remotely. Spring Semester starts on January 18, 2023, and the following courses will be available if there are enough students registered:

Geotechnical Engineering II	CE 530	Tuesdays and Thursdays	6:05 – 07:20	pm
Analy. of Indeter. Structures	CE 540	Mondays	7:00 – 10:00	pm
Pavement and Track Design	CE 555	Tuesdays	7:30 – 10:00	pm
CT. Env. Regulations and Policy	CE 504	Thursdays	7:30 – 10:00	pm
Adv. Air Quality Engr.	CE 550	Tuesdays	7:30 – 10:00	pm

For a detailed course description, please consult the course catalog at:

<https://catalog.hartford.edu/index.php>

Prerequisite: Successful completion of an undergraduate civil engineering program with undergraduate courses in structural analysis, concrete design, soil mechanics, and transportation engineering. You need not be admitted to the program to take these courses as long as the prerequisite requirements are satisfied. Applicants to the graduate program may enroll for up to 6 credits on a non-matriculated basis before making a formal application for admission. Grades of courses taken will be considered in the review of the application.

If you or anyone else in your organization are interested in any of the above courses, please contact me at keshawarz@hartford.edu or the graduate program manager, Laurie Granstrand at granstrn@hartford.edu

Sincerely yours,

Saleh Keshawarz, Ph.D., P.E.
Professor and Chair
