

Technical Visit to Kowloon Station Package 5, 6 Development

organized by

American Society of Civil Engineers – Hong Kong Section

Date of Site Visit: Saturday, 14th May 2005

Time: 9:00 am to 12:00 pm

Assembly: Kowloon Station Ticketing Hall (G/F)

Program Highlight:

Kowloon Station Development (KSD) is located on the southern portion of the West Kowloon Reclamation and is adjacent to the planned waterfront cultural development area on the southwest of the reclamation peninsular. The present works on the KSD comprise two towers, Towers T20 & T21 and a 6-level retail center with carpark of total 83830 sq.m. of GFA.

The two towers will be a mix of suit hotel, service apartments and residential building. Each tower has about 60 storeys above the podium transfer plate and is above the existing MTRC LAR Kowloon Station Box and Station Square. The transfer plate is a 5m deep resting on large diameter mega columns. Significant penetrations in the transfer plate are required for vertical transportation.
