

2025 UNDERGRADUATE SCHOLARSHIP WINNERS

Gregory Pepin (Cornell '27) \$2,000: Gregory is a second-year civil engineering student specializing in hydrology and water resources. He plans to stay involved with Engineers Without Borders and ASCE while working toward becoming a licensed professional engineer. In practice, he plans to focus on delivering community-centered infrastructure projects in Rochester.

Charlie Grove (Clarkson '27) \$1,500: After graduation, Charlie hopes to continue to graduate school before transitioning into a professional role. While he is leaning towards entering the field of wastewater management, he is eager to use the remainder of his studies to determine which branch of Civil Engineering he will ultimately find himself a part of.

Albert Petry (RIT '25) \$1,500: After graduation, Albert plans to attend graduate school to pursue a masters degree in civil engineering with a focus on structural engineering. He will continue to perform research during his studies. Post graduation, Albert plans to work as a structural engineer.

Tyler Fogarty (RIT '26) \$1,000: After graduation, Tyler's goal is to contribute to the greater Rochester community like the civil engineers who paved the way before him. His focus is on people: using strong communication skills to enhance the way engineers shape the future. Tyler aspires to earn an MBA and work toward obtaining his PE license to grow both as a leader and a technical professional.
