

2026 UNDERGRADUATE SCHOLARSHIP WINNERS

Adam Guarnera (University at Buffalo '26) \$2,000: Adam will continue working as a Staff Engineer at Dan Brown and Associates until he graduates from UB in May of 2026 with a BS in Civil Engineering. In July, Adam will travel with 11 teammates to Portland, OR to compete in the EERI International Seismic Design Competition, presenting their year-long project and testing their balsa wood model. In August 2026 he will begin as a full-time buildings structural engineer with WSP in Buffalo, NY.

Gregory Pepin (Cornell University '27) \$1,750: As Gregory closes out his junior year, his interests remain broad, with a growing focus on coastal, environmental water resources, and structural engineering. He is excited to continue contributing to those projects close to home, while also considering graduate school and research opportunities that could support meaningful work on a global scale.

Olivia Cross (Syracuse University '26) \$1,250: After graduation in May, Olivia plans to work in the buildings engineering department at LaBella Associates for the summer in Rochester, NY. In the fall she will return to Syracuse University to finish a 3+2 BS Civil Engineering/MBA dual degree.
