

A Look Ahead for the Sacramento Section

Jai Singh, P.E.
Sacramento Section President

As we enter 2024, the Sacramento Section is buzzing with excitement for the upcoming year. The Section continues its dynamic streak by spearheading events such as the California Infrastructure Symposium, Region 9 Awards banquet and hosting local annual events.

In November 2023, the events planning team lead by Saim Badar, hosted a vibrant event to honor high achievers in our industry. The event enjoyed a robust attendance and showcased ASCE's role in recognizing the civil engineers' contributions to several marquee projects in the Sacramento region.

The Golze Scholarship team, which has raised \$ 800,000 in the last 10 years and has benefited 250 students, did not disappoint this past year. The team raised \$125,000 in scholarship fund. The fund provides civil engineering students at local universities with encouragement and financial assistance. An awards ceremony will be held in early fall of 2024.

As we move forward into the year, the section in collaboration with Region 9 is focused on the California Infrastructure Symposium. Join us on March 28-29, 2024, for an exclusive look at California-specific challenges and trends. From water opportunities and transportation hurdles to boosting resilience and sustainability, this symposium will cover an array of topics that are of primary concern to our industry. This is also an opportunity to hear from keynote speakers who are leading the decisions in infrastructure statewide. Don't miss out on this opportunity to gain valuable insights and connect with industry leaders. Register now for the California Infrastructure Symposium 2024 by clicking the link below.
