

VT Civil Staff Engineer

*At a Creative and Stimulating Engineering Firm
Preferred 0-5 Years of Total Relevant Experience*

Seeking a motivated staff member on an E.I.T., to P.E. track.

ABOUT US

Looking for a position at a healthy, vibrant, and highly recognized engineering firm? Look no further! At Engineering Ventures, PC (EV) we integrate a range of exciting civil/structural engineering and related disciplines, which make our offices highly collaborative and our workdays engaging. We are a values-based workplace. We believe we can achieve individual and collective goals by engineering projects which responsibly enhance the quality of life for the communities we serve.

Our teams work on a wide variety of fulfilling projects in our communities including urban redevelopment, medical facilities, municipal infrastructure improvements, and private development. Our clients include architects, universities, hospitals, municipalities, non-profits, private developers, and homeowners.

ABOUT YOU

We are seeking someone with strong technical skills, and clear, written and verbal communication skills. Schedule flexibility and willingness to complete assignments as workloads dictate is necessary.

Salary: \$55,000 – \$85,000

KEY RESPONSIBILITIES:

- Civil 3D based drafting from redlines and design/draft
- Stormwater design and permitting in VT, NH, and NY
- Water and sanitary sewer design and permitting
- On-site septic design and permitting
- General site civil design and permitting
- Field work (survey, soils review, construction administration)

QUALIFICATIONS:

- B.S. in Civil Engineering.
- 0-5 years of total relevant engineering experience (may include time in Staff Engineer role).
- Expectation to become registered as a Professional Engineer (P.E.) in Vermont within 2 years.
- Technical writing proficiency.
- Strong written and verbal communication skills to communicate successfully with clients and team members.
- Relevant design experience in site design, utilities, and permitting.
