President's Message

Hello All!

What a great ski day! With the snow we have received the conditions were perfect for a fun day. We had a great turn out of 50

students and professionals. Thank you Scott Homsted P.E. for the great presentation on The Challengers of civil/site design for residential development and Bolton Valley for hosting and providing a delicious lunch. Also thank you to our generous sponsors for helping to make this event possible. We truly appreciate your support. Check out the great group photo in the Newsletter (and note the smiling faces).

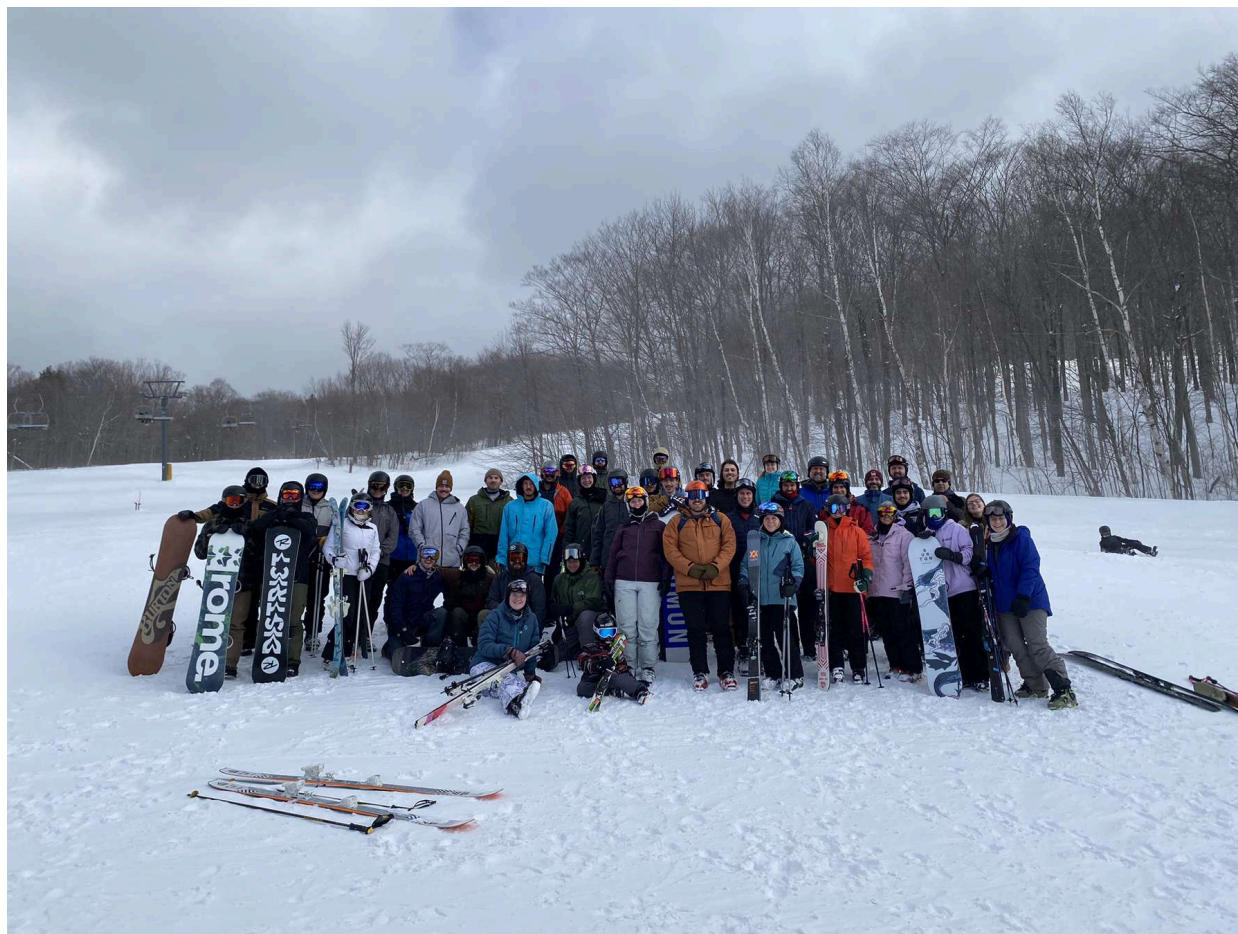

We have many more great events planned for the coming months. Stay tuned for more details and feel free to reach out if you have any questions about ASCE, would like to become more involved, or even if you would just like to connect.

Hope to see you soon!

Thank you,

Sean Wines

Ski Day Recap

VT ASCE held our annual Ski Day at Bolton Valley on February 7th. Despite a blustery day, we had some great fresh snow to play on, and about 50 professionals and students got to network and ski together for the day. Scott Homsted, PE, from Krebs & Lansing Consulting Engineers gave a great technical presentation on the challenges of residential development at Bolton Valley Resort. Thanks to Scott, and to everyone who came and got to ski and ride and spend the day with VT ASCE. We're already looking forward to next year!

Multi-Regional Leadership Conference Recap

In January, our President Elect, Zelda Dively, and Secretary, Vic Amesoder, represented the Vermont Section at this year's Multi-Region Leadership Conference in Memphis, Tennessee. In addition, Norwich University and the University of Vermont both sent student chapter leaders down to meet with other schools and learn more about what ASCE has to offer. The weekend was full of networking and leadership development opportunities, with multiple social events and informative sessions led by experts in their fields.

Vermont's own Membership Committee Chair, Erin Robinson, played an instrumental role in the success of the weekend as she helped organize the event, led her own session for younger members, and assisted in the keynote presentation. Last but not least, the Vermont Section took home the 2024 Outstanding Section and Branch Award for the Small Section and Branch Membership Category!

2025 Vermont ASCE Sponsorship Request

We are seeking sponsorships to help support several great ASCE Vermont Section programs and events that are planned for 2025. With your support, VT ASCE provides undergraduate funding to civil engineering students at the University of Vermont and Norwich University and contributes to the VSE scholarship program, Engineers Week, and MathCounts. Sponsorships also allow us to offer a reduced rate to engineering students to attend our events which provide fun and educational opportunities for students to engage with professional members and learn what ASCE is all about.

As part of a VT-ASCE Sponsorship, your Logo will be featured on the VT-ASCE website and our monthly newsletter for the 2025 calendar year. Our Black Diamond Sponsors will also receive two 2-month job postings in 2025 (a \$300 value!). Be sure to submit your sponsorship by February 6th, 2025 to receive recognition at our annual Ski Day event, which is well attended by students and younger members. If you would like to sponsor the ASCE Vermont Section, please fill out the sponsorship form below and return to Andrea Ameden, VT Section Treasurer.

Thank you for your support!

UVM Capstone Professionals Panel

At the beginning of the spring semester, UVM's CEE Senior Capstone Design Class welcomed a few alumni, including two Vermont Section board members, for a Q&A panel session. They shared insight on career paths and offered advice on public speaking, project permitting, networking, email etiquette, and creative designs during the discussion. This event was a great opportunity for students to ask questions about capstone projects, desired skills for entry-level candidates, and general professional paths available after graduation. We are looking forward to engaging with the students more as the semester progresses! If you would like to get involved and support UVM's capstone students, please reach out to John Lens (john.lens@uvm.edu) for opportunities.

Job Postings

Director of Public Works - St. Albans, VT

Join Our Team as the Director of Public Works - St. Albans, Vermont

The Town of St. Albans, Vermont, nestled in the scenic New England landscape and rich with history and community spirit, is seeking a dynamic and experienced Public Works Director to lead and oversee the essential infrastructure that serves our residents. This pivotal role ensures the safety, functionality, and appeal of our town through managing municipal buildings, streets, parks, and stormwater infrastructure. As the face of the department, the Director will have a lasting impact on the health, safety, and overall perception of our community.

Key Responsibilities:

The Director will oversee departmental functions to ensure efficiency, safety, and high morale. Responsibilities include managing capital and operating budgets, leading a team of dedicated professionals, and maintaining public trust through timely response and transparent communication with residents. Additionally, the role involves directing infrastructure projects, upholding compliance standards, monitoring weather and road conditions, and coordinating emergency responses.

Qualifications & Competencies:

The ideal candidate holds a bachelor's degree in civil engineering or a related field and has five years of municipal public works management experience. Proficiency in technical areas such as highway construction, budget management, problem-solving, and public service is essential. Licensure as a Professional Engineer in Vermont is preferred but not required.

Why Join Us?

As a valued member of the St. Albans team, you'll receive a competitive benefits package, including PTO, comprehensive health, dental, and vision plans, and access to a municipal pension. This is a fantastic opportunity for a forward-thinking professional to contribute to a growing community in an empowering role, with significant responsibility in ensuring the well-being and satisfaction of St. Albans residents.

If you're interested in posting a career opportunity here, please fill out [this form](#) or reach out to our treasurer [Andrea Ameden](#). These newsletters go out to nearly 400 of our Vermont ASCE members made up of practicing civil engineers.

Thank you to our 2025 sponsors!
