Message from the President

Hello Everyone! My name is Tyler Barnard and I am very excited to serve as your new president for the 2020-2021 year!

I have been serving as the Membership Chair on the Board of Directors for the Vermont Chapter of ASCE

since 2015 until taking on the role of president elect for the 2019-2020 year. During this time, I have helped organize social events for members across the state and assisted writing Vermont's 2019 infrastructure report card.

I graduated from Penn State University in the winter of 2014 with a Bachelor's Degree in Civil Engineering and promptly moved to Vermont. My previous work experience includes designing septic systems and performing survey work for residential subdivisions and small commercial projects. Now, working for Engineering Ventures in Burlington, I perform civil site design for commercial and residential projects of all sizes.

Stepping in as president during these unprecedented times is already proving to be a challenge, but our Board and I are working diligently to deliver excellent quality virtual presentations and as much community outreach as we can to maintain the ASCE experience.
